## SAYS START UPWARD

Secretary of Treasury William H. Wooden believes the modified banking holiday proclaimed by President Roosevelt marks the turning point in the nation's banking crisis. "This is the start of the real thing," he told newspaper men Sunday night.

## EMPLOYMENT INCREASES SLIGHTLY

Indications pointing to a slight increase in employment in North Carolina during the next three months were contained in a statement made Monday by Liston L. Mallard, of the division of statistics of the North Carolina department of labor.

# AMERICAN JAZZ BANNED

American jazz music, especially that brand produced by Negro orchestras and singers, has been banned from the Berlin, Germany. broadcasting station under the new government radio restrictions, it was announced Monday.

### U'GE QUICK ACTION

Federal loans to provide jobs instead of charity for the unemployed was recommended in a broad economic rehabilitation program announced by the American Federation of Labor Monday.

#### N. Y. ISSUES SCRIPT

The great banking institutions of New York City Tuesday found themselves under the rules of a second dictator as plans moved forward rapidly for an issue of script under state auspices to augment or substitute for the local clearing house.

# JAPAN WOOS SIAM

The Manchukuo government will undertake a commercial treaty with Siam on the broad principle of working towards a "greater Asia", it was learned Tuesday.

## ROBERTS HOPEFUL

C. W. Roberts, of Greensboro, president of the Carolina Motor club, said Tuesday he believed an improvement of general conditions are in the immediate future.

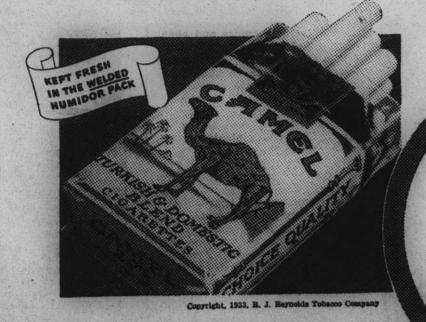

In India, the fakirs present a spectacle to tourists. Two lovely performers break bottles' and lamp chimneys before the eyes of the audience, and throw the jagged pieces into a box already filled with broken glass. They step barefooted into the box and do an Oriental dance in the glass without injury.

#### **EXPLANATION:**

The performers toughen their feet in a strong solution of alum water and thoroughly rub them with pulverized resin before they appear. They throw the freshly broken glass around the edges of the platform. The glass on which they actually do dance is very thick, heavy, and filed or ground so that the sharp edges are rounded off. The girls just *pretend* to dance on the *sharp* glass.

# It's FUN TO BE FOOLED ... IT'S MORE FUN TO KNOW

One of the tricks of cigarette advertising is to pretend that "Heat Treatment" is an exclusive process, making one cigarette better than any other.

**EXPLANATION:** All cigarette manufacturers use heat treatment. It is a routine process of manufacture. The first Camel cigarette ever made was manufactured under the heat-treating

process. Every one of the billions of Camels produced since has received the necessary heat treatment.

Harsh, raw tobaccos require intensive processing under high temperatures. The more expensive tobaccos, which are naturally mild, call for only a moderate application of heat. Heat treatment never can make cheap, inferior tobacco good.

It is a fact, well known by leaf tobacco experts, that Camels are made from finer, **MORE EXPENSIVE tobaccos than** any other popular brand.

This is the most important statement ever made in a cigarette advertisement. Weigh its words. Consider what it means. Then try Camels. Camels are fresh ... in the air-tight, welded Humidor Pack.

NO TRICKS .. JUST COSTLIER TOBACCOS IN A MATCHLESS BL.
