**AFTER 8,000 MILES**

**AS STRONG AS NEW**

Percent of tensile strength remaining in cords after long use in tires:

Miles Run	Supertwist Tire Cords	Ordinary Tire Cords
8,000	93%	82%
16,000	81%	36%

Supertwist Cord—a Good-year patent—stretches, absorbs shocks, and comes back strong! Thoroughly rubber-ret to resist heat, it gives lasting blowout protection in every ply. Ask us to demonstrate!

Use super-soft tires the new 1934 cars are wearing. They can be easily applied on most 1933 or 1932 cars. Ask for our special offer on the GOODYEAR AIRWHEEL.

Any good new tire is pretty safe from blowouts—but how safe is it after thousands of miles? Think over those percentages above! Remember, the public finds that Goodyears stand up longest—that's why more people buy Goodyears than any other tires. Since Goodyears cost nothing extra, put them on your car!

Prices subject to change without notice and to any State sales tax.
