STORM SWEEPS ACROSS SOUTHEASTERN N. C.

Raleigh, Mar. 12.—Houses, trees, barns and communication lines fell when a heavy wind swept across the southeastern portion of North Carolina late today.

birth would be accepted without question. The father has been sick, but was again about his duties a few days ago. Certainly within a few years, at most, the father would not have been here to make out a certificate of birth for the Governor of North Carolina—and much trouble would have been experienced to establish that fact.

The certificate was presented as a feature of the "Register Your Baby" campaign now about to end in North Carolina, conducted by the Bureau of the Census, State Board of Health and State ERA.

carried into the homes of millions of persons who do not share my faith. I am thoroughly mindful that, despite differences of religion, race, color, and of profession, I am also an American citizen privileged as such to speak to American citizens," said Coughlin.

Court Awards Boys Pot of Gold They Found

BALTIMORE . . . Theodore Jones, left, and Henry Grob, right, (above), both 16 and sons of families on relief rolls, unearthed a pot of gold coins, valued at \$27,800, in a cellar of the Jones home. The coins dated before 1858. There were many claims filed but the court rules "finders are keepers" and the boys are to get the gold.

Birth Registration Is Commended By Mrs. W. T. Bost

Raleigh, Mar. 11.—"The Bureau of the Census, in making an investigation of the completeness of birth registration in many states, has initiated a campaign which should terminate in a permanent program that should commend itself to every citizen," said Mrs. W. T. Bost, State Commissioner of Public Welfare, in a statement endorsing the State Board of Health, State ERA and Census Bureau baby registration campaign.

"The State Department of Public Welfare is thoroughly in accord with efforts of the State Board of Health to secure a complete birth registration and feels that it should have full cooperation of all local and State agencies to that end. This department has frequent occasion to refer to the Bureau of Vital Statistics for verification of the birth dates of children whose mothers make application for Mothers' Aid, as the ages of the children determine the amount of the grant, when the grant should be decreased or discontinued," said Mrs. Bost.

beans, and other cash crops which have brought thousands of dollars into the county.

Assistance has been given farmers in selling beef cattle, and this assistance has in most cases meant much better prices for the cattle that were sold.

Cooperative purchases of feeds, seeds and fertilizers have been made with the result that the cooperative farmers have been able to get the best of these products at the lowest prices possible.

In 1932 twenty thousand pounds of Kidney and Birdseye beans were sold for the farmers when they had no market for these products.

In 1934 there were 22 French silos filled in the county, and this ensilage is helping the farmers of the county to solve their winter feeding problems.

Last year there were 188 Corn-Hog contracts and 51 Tobacco contracts signed in the county. The benefit payments from these contracts will amount to \$15,000 and at least one-third of this amount will be clear profit to the farmers.

It has cost Alleghany county less than 50 cents per farm per year to keep a county agent. My records show that it would have cost the farmers of this county ten times this much to have done without an agent for the last five years. A county agent is an investment instead of a tax burden. As an average tax payer and with no other interest than the up-building of Alleghany county, I would like to see county agent work continued here with the best agent that can be had.

Laws Regarding Mortgage Lending Are Of Interest

Those Connected With Federal Housing Work In North Carolina Are Particularly Concerned

Washington, Mar. 12.—Enactment by the State of North Carolina of legislation with respect to mortgage lending should be of the very greatest interest to all who are concerned with the program of the Federal Housing Administration.

Under the new laws all such financial institutions as state banks and trust companies, building and loan associations and other lending agencies are authorized to make mortgage loans in accordance with the terms and conditions laid down for insured mortgages in the National Housing Act. That is to say, such loans may be made against first mortgages in amounts up to 80 per cent of the appraised value of property and for periods of as long as 20 years, provided that the mortgage requires monthly payments on principal and interest sufficient to pay it off by the time it falls due, and conforms in other respects to the requirements of the National Housing Act and the regulations laid down by the Federal Housing Administration.

Under this new state legislation, all financial institutions subject to the state law are now placed in a position of competitive equality with the national banks operating in the state.

It will be recalled that under the National Housing Act itself all national banks are authorized to make long-term loans up to 80 per cent of appraised values against insured mortgages. Thus the last obstacle to complete cooperation on the part of every financial institution in the state has been cleared away.

All institutions which have not already done so may now send in their applications to the Federal Housing Administration for approval as lenders under the insured mortgage plan.

Utilities Attack By Roosevelt Is Loudly Applauded

Washington, Mar. 12.—The system under which holding companies in large financial centers control the price of gas and electricity in far corners of the United States was denounced today by President Roosevelt in a blistering message to Congress.

He urged passage of legislation which would strip such concerns of their grasp on power rates and said the concentration of control in the hands of large utility concerns was "private socialism." Unless checked, the President added, it will lead to governmental socialism.

Mr. Roosevelt's message stirred a storm of applause from the Democratic benches in the House. Members leaped to their feet and hammered their palms together, and it was several minutes before Speaker Joseph W. Byrns could gavel them back to order.

NEGRO IS LYNCHED

Slayden, Miss., Mar. 12.—A mob of about 50 men late today lynched a Negro, Ab Young, accused of killing Hardy Mackie, 45, here Saturday night.

The Negro went to his death singing religious songs and praying. Members of the mob placed a rope around his neck while he stood in a truck, tied the rope to the limb of an oak tree in a schoolyard near here, and drove the truck out from under him.

Sparta Girls Lose Game In Winston-Salem

Final Score In Tilt With Walkertown High School Girls Tuesday Afternoon Is 19 To 8

The Sparta high school girls' basketball team was defeated Monday night in a game played with the Walkertown high school girls in the tourney which is being held in Winston-Salem.

The local girls were accompanied to Winston-Salem by Mrs. Omnia Fowler, Miss Betty Fowler, Miss Jean Reeves and their coach, Miss Mabel Crowe.

The Walkertown girls moved forward by winning the afternoon game, by a score of 19 to 8.

Both teams offered smooth passing attacks but the Walkertown girls made their scoring efforts count to a better advantage. Walkertown led at half-time 13 to 5.

Inskip took top scoring honors for Sparta while L. Brown stood out for Walkertown in the scoring attack, turning in 17 points.

The guarding done by the two teams was very good.
