The official returns showed that the President received 59.14 per cent. of the Roosevelt-Hoover vote revealing an error of 0.72 per cent. in the magazine's forecast.

In the spring of 1932 a poll of the national sentiment on Prohibition forecast a popular vote of 75.05 per cent. for repeal. Returns from the States' elections which brought about the demise of the Eighteenth Amendment in 1933 showed a combined percentage of 73.41 for repeal, evidencing a deviation of 1.64 per cent error in the magazine's balloting on the Prohibition question.
