Hear Lloyd George News From the Cosmos Statesmen and Politicians Sloan's Fine Figures

Lloyd George, who ran the big war for England and won with the help of old Clemenceau, not sympathetic with France this time, says England is shall send our men to die, this time on German soll, to punish those arrogant and aggressive Teutons for daring to make preparations for the de-

Arthur Brisbane fense of their own soll against a foreign invader."

Lloyd George is bitter in his denunciation of the suggestion that England be dragged into another war. "France," says he, "can spend \$500,000,000 on the erection of huge fortifications. We can vote plans which involve expenditure of an extra fifteen hundred million dollars for protection. But if the Germans propose to throw up even a pillbox to guard their famous citles and their greatest industrial area . . . then 'measures must be concerted' between the general army staffs of Britain and France."

The "fastest" double star is found, and that is the big news. "Twin suns" close together, in the constellation of Ophluchus, revolve completely around each other in twenty months. The shortest period of revolution for any other "binary" star is five years. Some revolve only once in a hundred years.

Nature is both fast and slow; the electron in the atom revolves around the proton thousands of millons of times in a second. The lens-shaped Milky Way above your head, in which our sun is one of thirty thousand million specks of light, revolves once in 225,000,000 years. No limit to bigness, no limit to smallness, apparently.

That naval conference in London ends, quite to the satisfaction of England, with the situation about as it was when Hiram Johnson of California put the situation in these few words:

"Great Britain builds as she prefers; the United States builds as Great Britain permits."

England actually says to the United States, "You must build no more cruisers with eight-inch guns; we do not like them." And the United States humbly says, "All right, then we shall not build any."

It is the old story: England has statesmen, we have politicians—and some of them are Anglomaniac

Big business, like little business, has had its trouble, but here and there it is still big business. In his annual report for General Motors, Alfred P. Sloan, Jr., reports net sales last year amounting to \$1,155,641,511, against \$862,672,670 the year before; a gain of more than two hundred and ninety-two million dollars. That means many new cars, and families made happier. The company paid out in wages more than three hundred and twenty-three million dollars, not including wages paid indirectly to thousands of workers producing materials of which automobiles are

Sixty of Mussolini's planes have wiped out Harar, Ethiopia's second biggest city, one of 40,000 inhabit-ants. "Civilized" Europe, England leading, bemoans the fact that a Mohammedan mosque, the Coptic cathedral and a Catholic church were blasted.

They forget what happened in the big war, at Rheims, Louvain and elsewhere, and the German cannon "Big Bertha" throwing at Paris shells that might well have wrecked Notre Dame, the Madeleine or the Sainte Chapelle.

War is as ruthless as was na-ture in the earthquake that destroyed the great cathedral of Lisbon,

When Pittsburgh is through with the disaster that has almost overwhelmed the city, a monum should be erected in a park, or on the mountainside, in honor of the courage and recuperative energy of the great industrial city. With lights turned off, water flooding the streets, many men and women calmly continued their work, wearing coal miners' light-bearing caps, like so many gigantic glow worms, Americans still possess resourceful-ness and can do what they must do.

"To him that hath shall be given," ven in Wall street speculation. Beginning May 1, if you buy \$100 worth of stocks, you must put \$55 of your own into the deal. This will compel small fish to operate on a small scale and get rich slowly, if

Read the offer made by the Postu Company in another part of this p per. They will send a full week's an ply of health giving Postum free anyone who writes for it.—Adv.

The Machine Age

How to permit the human race to enjoy the benefits of machinery without depriving men of their employment is a hard nut to crack; and it is not yet cracked.

HOW CARDUI HELPS MONTH AFTER MONTH

MONTH AFTER MONTH
Where there have been severe
pains every month from functional
disturbances resulting from poor
nourishment, Cardui has helped
thousands of women to obtain relief.
"I suffered a great deal with pain
in my side and a weakness in my
back," writes Mrs. Walter Page, of
Evansville, Ind.
"Each month I would suffer all over and
would have to go to bed. One of my neighbors told me how Cardui helped her, so I
took it and it helped me. After taking
eight bottles, I was better. I surely can
recommend Cardui for weakness and pain."
Of course, if Cardui does not benefit
YOU, consult a physician.
