Pikeville Teacherage and Woods Suffer From Flames

Teacherage Slightly Damaged By Fire, Thought Caused From Wiring

TWO FOREST FIRES REPORTED YESTERDAY

Fire on Wayne-Lenoir Line Burns Over Almost 200 Acres Of Land

Fires kept a number of folks busy in Wayne county yesterday. Fire Warden E. D. Ham was called to two fires, one of them an extensive one.

And some of the folks at Pikeville were called upon to put out a fire in the teacherage there; a fire thought to have been caused by a short circuit in a wire.

The damage at Pikeville was not so great from the fire as from the water used in stopping the fire, it was understood.

One of the forest fires burned over around 150 to 200 acres in the lower edge of Wayne County, in the big pecosin which is on the border between Wayne and Lenoir counties.

Warden Ham said he saw a smoke in the Adamsville section of New Hope township and about the time he got that small fire under control he saw the smoke from the one in the lower edge of the county and it took him and a group of firemen the balance of the day to get the fire under control.

He stated that he was unable to learn the cause of the fire or the extent of the damage, but he plans to go today to investigate further.

The fire in the Pikeville teacherage was discovered in time to prevent extensive damage; but the damage done was not at once estimated.

Belfast Grange Seats Officers In Monday Meet

60 Charter Members Reported As New Organization Gets Underway

Approximately 60 charter members have been secured for the Belfast Grange, according to an announcement Monday night when the officers of the organization were installed.

Next meeting of the Grange will be held Monday night, April 5, at 7:30 p. m. in the Belfast school building.

Harry B. Caldwell of Greensboro, state lecturer for the Grange was present Monday night to direct the installation of officers who had been elected previously, and those who were chosen at the Monday meeting.

Those who had been elected were A. S. Knowles, master; W. W. Andrews, lecturer; Mrs. B. O. Pate, secretary, and Mrs. Frank Andrews, treasurer.

Those named at the Monday meeting were O. J. Howell, I. J. Moxino, and B. L. Dale, member of the executive committee; R. L. Hollowell, overseer; W. C. Pate, steward; B. G. Scott, assistant steward; W. J. Howell, chaplain; R. F. Pennant, gate keeper; Mrs. A. S. Knowles, lady steward; W. E. Bartlette, promoter; Mrs. I. J. Moxino, lady steward; and Mrs. R. F. Hollowell, assistant lady steward.

Mrs. Bettie Hooks Dies At Fremont

Funeral Services Were Conducted From The Home On Monday Afternoon

Mrs. Bettie Overman Hooks, 73, widow of Matthew R. Hooks, died at the home of her son, Elijah Hooks, two miles west of Fremont Sunday morning following an illness of three weeks.

Mrs. Hooks was a native of the Fremont community, and a member of a family long prominent in Wayne County. She was a lifelong member of the Primitive Baptist Church. She is survived by two sons, W. J. and Elijah Hooks, both of near Fremont, and a number of grandchildren.

Funeral services were conducted from the home Monday afternoon by Rev. S. B. Denny of Wilson, Primitive Baptist minister. Interment was in the family cemetery near the home.

Christian Pastor

Rev. Olin Fox, pastor of the First Christian Church in Goldboro, is leading his church in a "Ten Weeks Loyalty Campaign."

Christian Church Launches 10 Weeks Loyalty Campaign

Special Series Of Sermons On Sunday Night Features The Campaign

A "Ten Weeks Loyalty Campaign" began last Sunday at the First Christian Church in Goldboro.

The pastor, Rev. Olin Fox, reported a wonderfully fine beginning, stating that the spirit and attendance were of a high standard throughout the day.

In the Sunday School 220 were present, the best in six months. The Men's Class, taught by the pastor, had 45 men.

This Loyalty Campaign has to do with all the services and the total program of the church, but will make special feature of the Sunday evening services.

The special feature subjects are listed below:

March 28, "The Secret Of A Happy Home."
April 4, "If Jesus Came to Goldboro, Would He Be Crucified?"
April 11, "The Pot of Gold at the Foot of the Rainbow."
April 18, "The Great Promises of Jesus." (A gift will be presented to the person bringing the best list of the promises made by Jesus.)
April 25, "Weighed in the Balance."
May 2, "Excuses? or Lies? Which?"
May 9, "Learning to Say 'Thank You.'"
May 16, "Why Some Prayers Are Not Answered."
May 23, "The Saddest Words Ever Spoken By Jesus."

The public is cordially invited to attend all these services.

National Honor Society Elects 7 Local Seniors

Scholarship, Character, Service And Leadership Are Qualifications

(By DOROTHY CROW)
Seven seniors—Marshall McDowell, Everett Proud, Mary Badour, William Dees, Rosanna Barnes, Ozello Woodward, and Jane Smith were initiated with an impressive ceremony into the National Honor Society Thursday March 18, at the Goldboro High School.

Preceding their initiation Superintendent Ray Armstrong spoke on the qualities a member of the National Honor Society should have—scholarship, character, service, and leadership.

To bring out his point he used the example of a father, a generation back, who had three sons. These sons had to do three things—ride well, shoot straight, and tell the truth.

Catholic Church Easter Services To Be On Sunday

Feast Of The Resurrection Of Saviour Will Be Solemnly Celebrated

The glorious Feast of the Resurrection of our Divine Savior will be solemnly celebrated at St. Mary's church on Easter Sunday at 10:00 a. m.

A festive High Mass will be sung by the Rev. Peter M. Denges, and the pastor's sermon theme will be "The Empty Tomb."

The sprightly Easter music will be under the direction of the Sisters of the Immaculate Heart of Mary, while Miss Rosette Marie Farfour will preside at the organ.

At 8:00 a. m. a Low Mass will be offered on Easter, but there will be no Vesper Service in the afternoon. Confessions will be heard on Holy Saturday from 4 to 5, and from 7 to 8 p. m.

On Good Friday, the Way of the Cross will be held at 2:00 p. m., and at 7:30 p. m. the impressive Devotions of the Seven Last Words will take place.

The musical program for Easter follows: Paschal Prelude, Selected; Vidi Aquam, Montant; Missa Choralis in F, Casciolini; Kyrie; Gloria; Credo; Sanctus; Benedictus; Agnus Dei; Proper of the Mass, Gregorian Chant; Sequence, Victimae Paschali-Regorian Chant; Offertory, Terra Tremuit-Carturn; Paschal Postlude, Regina Coeli.

Everybody is welcome at all times and on all occasions at the Catholic church.

Miss Betsy Parks Honored At College

Miss Betsy Parks, daughter of Mrs. C. J. Parks of Goldboro, has been elected president of the Student Government Association of Anderson College, Anderson, S. C. Installation ceremonies for the new council took place Wednesday.

The Anderson News states that Miss Parks is a most outstanding student of the freshman class, having taken a high standing in scholastic and social activities and also athletics. During the year she has served as president of the art club, marshall of the freshman class, publicity manager of the Women's Athletic Association, and captain of the freshman soccer team. She is a member of the art club and the Y. W. C. A.

So far as weather conditions are concerned, this year is very much like last so far, as it has been so hot that the farmers have not made as good headway as they should, on account of rains, and grounds too wet for plowing. If it continues, it may delay planting as it did last year, but from what the farmers tell us in regard to tobacco beds, there will not be a very big supply of plants, as great many have practically none in their beds, and that being the case, there will not be as much planted as was first thought there would be, as plants are going to be very scarce, unless conditions improve very much from what they are at this time.

Mr. Resnie Watkins has been been very sick for a few days here at his home near us, and at one time his condition was somewhat alarming on account of high fever, and continued chills, which seemed not to respond to treatment. But the trouble was that he first took aspirin and Three related the effect of the medicine given him. However, we are glad to know that he is better, and hope he will soon be himself again.

Mr. N. B. Ingram also is confined to his bed with an obstinate case of lumbago, and rheumatism of the feet and limbs, having been troubled with it for a week or so, but his condition is somewhat improved, and with no return of the pains he has suffered, he should soon be up again and around the home, but will need care with himself for some time, as these cases have a tendency to return, especially when the trouble is a family condition, as his is, as he has a brother who has had the trouble many years, and his late father also so had the trouble, from young manhood, as long as he lived.

Mrs. H. L. Hooks has been very seriously sick at her home here at Oak-Glen since last Thursday night, when she was suddenly taken with nephritic colic and it really seemed that it was going to defy all treatment, in spite of all we could do. She suffered intensely at intervals until Saturday night, but since then has been easy, and is now on the road to recovery. Her condition was similar to her mother's, before she went to the hospital, in every respect.

Mr. and Mrs. David Pearce were here a short while last Wednesday afternoon on their way to Louisburg to spend the night with Mr. Pearce's mother. And Mrs. Pearce came back Saturday to be with her mother, Mrs. H. L. Hooks, and remained here till Sunday night, when Mr. Pearce came for her, as her mother was very much better.

When we noticed our esteemed friend Mr. Ben Carr on the street Monday evening, we noticed that his genial physiognomy was wreathed in a smile that would not come off and when we found the cause of this, it was that he had the information we have been looking for, relative to the fence around his fish pond. He tells us that it is for the purpose of keeping the bullfrogs in the pond, and that being the case, we take a little degree of comfort and satisfaction from the fact that we were not so very far afield, when we said said that we supposed it was to keep the fish from going over the dam, or the mosquitoes from using it as a breeding place. But still, we are not as certain about the matter yet, as we would like to be, for we all know that there is a great deal of difference between bullfrogs and fish, and the persistent mosquito.

As we all know the bullfrog is a well bred amphibian, and neither the fish, or the mosquito, can even touch him with a ten foot pole, and in fact neither one knows what the word means, and should the mosquito even think about it he would decide it was something he could not do, and draw blood, but he would be sadly mistaken, and the fish, he might have a few thoughts in regard to it, but they would not be worth mentioning. So the bullfrog has the first claim to the fence that surrounds the pretty little pond, and we venture to say that the frogs in that pond are of the very latest models, streamlined, in everything with double ignition, especially when it comes to jumping, and with no shifting lever at all, with nothing to do, but simply tinkle him right where his narrative was when he was a tadpole, before he could jump anything, or anywhere, and see him go into action at a standstill, after a few minutes action, he would be so far out of sight you would have to get a search light to find him. He doesn't even need any transmission, for when he goes into action, it is all in high gear, and the thoughts of a bugle-note transmission would make him sick at the stomach, and cause him to undervalue his ability to transport himself at the rate of anywhere from five to twenty feet at a jump. Neither does he need any distributor, or headlights, or anything of the kind, as he gets over ground actually in leaps and bounds, and when he strikes water, he is as much at home in it as a duck is, and can disport himself with as much ease and satisfaction with as much ease on the ground when he jumps so far and fast that you hardly see him leave the ground.

ITEMS and IDEAS

by A Country Physician Dr. W. B. Crawford

Mr. John Gurley and family of Wilson stopped at Oak-Glen a short while Sunday afternoon, just to shake hands and find how we all were getting along. Friend John is Chief of Police of Wilson, and when he passes down this way on any Sunday afternoon, as he takes his family out driving, he rarely fails to stop and give us the glad hand, which we appreciate.

Mr. David Sutton who is attending State College at Raleigh, spent the week end here with his parents Mr. and Mrs. Bernice L. Sutton, and on Saturday night brought his sister, Rachel, here as she had had the misfortune to stick a nail through her shoe, and well into her foot and was suffering great pain when we saw her, but suppose the treatment had the desired effect as we have not heard from her since, although we advised vaccine for tetanus, if there was the least change in her condition.

We see in the North Carolina Christian Advocate, a whole page and a little over, in regard to our beloved friend and former pastor, Rev. J. M. Carraway. The minister writing the article said he had known him only fourteen months, but had found out that he was a mighty good man, and had a whole lot of nice things to say about him. He had long known that the well servant of his Master was not appreciated as he should be, as he served the Goldboro circuit back in the early nineties, and we have never known a more consecrated Christian than he was, and there has never been a more earnest and devout preacher on this charge than he was, or one who held the love and esteem of all to a higher degree. Surely he did not pass for half his real worth here, as he was quiet and unassuming, and never tried to impress people with his individual traits of character, as he was too very busy with the message he was carrying to those in need of salvation to even think of his own good. But so far as a real Christian we have often said that he came as near filling the bill as anyone we ever knew, and we wish our conference was filled with men just like him, as he was a good doctrinal preacher, and with it, as fine a pastor as this charge has ever had. One of the real old type, evangelical preachers, of the long ago.

So far as weather conditions are concerned, this year is very much like last so far, as it has been so hot that the farmers have not made as good headway as they should, on account of rains, and grounds too wet for plowing. If it continues, it may delay planting as it did last year, but from what the farmers tell us in regard to tobacco beds, there will not be a very big supply of plants, as great many have practically none in their beds, and that being the case, there will not be as much planted as was first thought there would be, as plants are going to be very scarce, unless conditions improve very much from what they are at this time.

Eight Schools to Play in County Baseball League

Schedule Will Open On April 1: Continue Until Schools Play Each Other

SEVEN SPRINGS WON HONORS LAST YEAR

Championship Series Will Be Schedule For Week Of May 2, Announced

Eight of the high schools in Wayne County will compete for baseball honors beginning April 2, according to announcement of Charles Stapleton, director of the Community Building, yesterday.

The county will be divided into two sections, northern and southern divisions, and the winners in each division will compete with each other for the county championship in a three-game series.

During the last season Rosewood and Seven Springs were victorious in the divisions and in the final play-off Seven Springs won the championship taking two of the three games.

All games for this season are scheduled for Goldboro, but may be played at the various schools if the teams decide to do so, the announcement said.

The championship series this year, if one is needed to decide honors, will be scheduled the week of May 2.

The schedule of games is as follows:

Northern Division
Nahunta vs. Fremont at Nahunta—April 2nd.
Eureka vs. Pikeville at Pikeville—April 2nd.
Nahunta vs. Eureka at Eureka—April 9th.
Pikeville vs. Fremont at Fremont—April 9th.
Fremont vs. Eureka at Fremont—April 16th.
Pikeville vs. Nahunta at Nahunta—April 16th.

Southern Division
Brogden vs. Rosewood at Rosewood—April 2nd.
Chatham vs. Seven Springs at Seven Springs—April 2nd.
Brogden vs. Grantham at Brogden—April 16th.
Rosewood vs. Grantham at Grantham—April 9th.
Seven Springs vs. Brogden at Seven Springs—April 9th.

Time of games shall be 3:00 p. m. on dates scheduled unless otherwise arranged by school officials.

113 Patients Visit Clinic

Attendance at the Goldboro Orthopedic Clinic Thursday was the third largest in the nine years of the clinic. A total of 113 patients, most of whom were crippled children, registered. They came from as far west as Durham and as far east as the coast.

In charge of the clinic were Dr. W. M. Roberts, head surgeon at the State Orthopedic Hospital in Columbia; Dr. W. Roney and Dr. M. Jacobs, surgery specialists from Duke University; Miss Margaret Measamer, field supervisor, division of crippled children, state health board in Raleigh.

Bowers Accepts Emmaus Pastorate

Rev. H. C. Bowers has accepted the pastorate of the Emmaus Baptist Church, seven miles south of Goldboro, according to announcement this week.

A call to become pastor of the church was extended Mr. Bowers some days ago, and he told The Herald yesterday that he had accepted the work.

His first service as pastor will be Sunday afternoon at 2:30. The public is cordially invited to attend services at Emmaus at any time.

Infant Girl Baby Is Found In Pond

The body of a baby girl just born was discovered by D. C. Cogdell of Goldboro near his fish pond two miles west of Goldboro on the Raleigh highway at dusk Thursday evening. The infant was pronounced about two months premature.
