

FALLING HAIR MEANS DANDRUFF IS ACTIVE

Give Your Hair! Get a 25 Cent Bottle of Danderine Right Now—Also Stops Itching Scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its luster, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderine from any store, and after the first application your hair will take on that life, luster and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness, but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp. Adv.

Overdoing Housework.
Housekeepers everywhere recognize that life is too valuable to spend every hour of the day in the mere keeping of the house. No human being can be continuously efficient and work more than eight hours in twenty-four. There are better ways, more scientific methods, more efficient utensils.—Charles Barnard.

MEETING OF GRAND LODGE OF MASONS

UNUSUALLY LARGE ATTENDANCE AT THE ANNUAL MEETING IN RALEIGH.

TAR HEEL CAPITOL NEWS

General News of North Carolina Collected and Condensed From the State Capital That Will Prove of Interest to All Our Readers.

Raleigh.
Grand Master Francis M. Winchester of Charlotte called to order the North Carolina Grand Lodge of Masons in the Grand Lodge temple here with an especially large attendance. The annual address of the Grand Master was presented and other preliminaries disposed of.

The annual oration on the order of Masonry and what it stands for was delivered by Grand Orator W. B. Love of Monroe.

The annual address of the Grand Master was most interesting, reviewing the progress of North Carolina Masonry for the first year of his administration. While receiving notices from time to time the past year of the death of prominent grand officers of other jurisdictions, not a single death took place in the official family of North Carolina Masonry.

Nine new lodges were instituted during the year, making 498 active subordinate lodges with 22,314 members.

North Carolina Leads South.

North Carolina led all Southern States in the number of spindles added during the past year, according to figures compiled from Directory of Southern Cotton Mills just from the press. Of the 768 mills 106 made additions and seven new ones were launched. The aggregate of increase amounted to 445,200 spindles as compared with 763,000 for the year preceding, which considering the many distributing elements entering into the situation is regarded as very satisfactory. The fact is noteworthy that during the past year a number of mills bought new machinery in the place of old which are not included in the foregoing summary of additions.

Another interesting feature about the year was the fact that quite a number of mills that had contracted for additions the year previous installed them during 1913. Such was the case with the Dan River Mills, Lancaster Cotton Mills, Woodside Cotton Mills and others, which, if added to the number of spindles actually contracted for, would swell the total for 1913 to a surprising figure.

The showing in the South and particularly in North Carolina where one half of the new spindles were added is particularly gratifying, considering the fact that the Democratic administration went into power during the year which had a decided disturbing effect on the textile industry by reason of the then pending tariff changes. These changes having been effected and the industry having now adjusted itself to the new state of affairs, it is reasonable to expect a much greater activity in cotton mills circles in 1914 than during the past year.

The following is the recapitulation of additions by state:

South Carolina	51,000
Georgia	66,300
Alabama	20,600
Alabama	30,600
Virginia	21,000
Tennessee	20,700
Texas	3,900

More Cotton, Tobacco, Potatoes.

Commissioner of Agriculture Graham announces that North Carolina leads the whole country for the fourth consecutive year in the amount of cotton raised an acre, the average being 238 pounds. South Carolina is second with 234 pounds. The Government report closes in May, and in 1913 North Carolina reported 315 pounds an acre.

The tobacco crop in North Carolina is reported as worth \$30,988,000, exceeding Kentucky, which is second, by more than \$2,000,000.

In sweet potatoes North Carolina is first with 8,900,000 bushels; Georgia second with 7,221,000. There is an increase in the quantity of wheat of 1,750,000 bushels over 1912, in oats of 7,900,000 bushels and in corn of 4,000,000.

Furthermore, North Carolina leads the whole country in the quantity of peanuts grown.

New Fertilizer Tags.

Commissioner Graham of the department of agriculture announces that the department will prepare fertilizer tags for packages weighing 10, 20 and 50 pounds, in addition to the regular bag tags, the object of the smaller tags being to make it possible to send these smaller packages through parcel post. It is expected that these small packages will be of much service in getting fertilizers for small plots of ground and for experiments and test culture. They will also be valuable in distributing fertilizers for prize contests, there being now valuable silver cups and other prizes offered to North Carolina cotton growers for the best cotton from certain fertilizer to be shown at the Cotton Exposition in London in June.

Rush Work on State Hospital.

Work on the new building at the State Hospital at Morganton for the insane is being rushed, and when completed will add space for about 200 patients. Even this will not entirely relieve the situation, as the institution has fully that many or more applications. The new building is located at the rear of the main building and between the building and the amusement hall.

Opening Masonic Home.

Members of the Masonic and Eastern Star fraternities from all sections of North Carolina were at Greensboro to attend the formal opening of the Masonic and Eastern Star Home, which is located at Pomona, three miles west of there. In addition to them many Greensboro people attended the exercises. The attendance of Masons was considerably augmented by the fact that many members of the order were passing through the city on their way to the Grand Lodge meeting in Raleigh.

Raleigh School Bonds Defeated.

The proposed \$50,000 bond issue for the Raleigh Public Schools was defeated 78 votes in the election. The vote was against a new registration in which scarcely more than one-third of the voters had taken the interest to register. The vote for bonds was 578. Had the bonds carried, the school trustees would have put \$25,000 in a new fire-proof school building for the Glenwood suburb, part of the remaining half would have gone to enlarging school buildings for negroes.

BIZZY, HEADACHY, SICK, "CASCARETS"

Gently cleanse your liver and sluggish bowels while you sleep.

Get a 10-cent box.

Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months. Adv.

KNOW WAY OF THE WORLD

Skeptical Jamie Was Not to Be Flattered, at Least at That Particular Moment.

"In some respects," said a New York lawyer, "Harry Thaw is as naive as a child. Although his money commands the country's finest legal talent, he always insists that it is he who directs his cases. He is skeptical, too, of all who approach him."

"That," he continued, "is as skeptical as Jamie. Jamie, a village celebrity somewhat lacking in intellect, sat on the racecourse fence the day of the local races, munching away at a leg of mutton which he had somehow procured and of which he was very proud.

"A wealthy steel magnate, whose country house was near the village, rode by in his fifty-horse power racing car and, seeing Jamie on the fence, said:

"Ah, Jamie, are you here already?" "Oh, esteemed Jamie, with a dignified and important air, looking significantly at the mutton bone, 'oh, yes; ye all know a body when he's got anything.'"

Early Suffragette.

Militant minded women were known in England before the suffragettes, one of whom lies in Henry VII's chapel—Margaret, countess of Richmond, its builder's mother, with her brass effigy by Torrington. She hated the Turk, and she made, as Camden reports, a sporting offer to the chivalrous of her day: "On the condition that princes of Christendom would combine themselves and march against the common enemy, the Turk, she would most willingly attend them and be their laundress in camp." That position of laundress to the crusaders would have been an easy one, for it was the fashion to make vows to change no underclothing until the holy sepulcher was regained.

Best of All Gifts.

A little boy in a big metropolitan Sunday school listened eagerly while the superintendent talking of missions urged every one present to contribute to the cause.

"Give what you can, not what you want," he concluded his exhortation "Give generously and of your best."

Little Joseph, taking the exhortation literally and being penniless, wrote on the slip passed out for depositing in the pledge box:

"Please, sir, I give myself."

WONDERED WHY.

Found the Answer Was "Coffee."

Many pale, sickly persons wonder for years why they have to suffer so, and eventually discover that the drug—caffine—in coffee is the main cause of the trouble.

"I was always very fond of coffee and drank it every day. I never had much flesh and often wondered why I was always so pale, thin and weak.

"About five years ago my health completely broke down and I was confined to my bed. My stomach was in such condition that I could hardly take sufficient nourishment to sustain life.

"During this time I was drinking coffee, didn't think I could do without it.

"After awhile I came to the conclusion that coffee was hurting me, and decided to give it up and try Postum. When it was made right—dark and rich—I soon became very fond of it.

"In one week I began to feel better. I could eat more and sleep better. My sick headaches were less frequent, and within five months I looked and felt like a new being, headache spells entirely gone.

"My health continued to improve and today I am well and strong, weigh 148 lbs. I attribute my present health to the life-giving qualities of Postum." Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pgs. Postum now comes in two forms: Regular Postum—must be well boiled. Instant Postum—is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with cream and sugar, makes a delicious beverage instantly. Grocers sell both kinds. "There's a Reason" for Postum.

Practical Fashions

BOY'S OVERALLS.

These are just the thing for the coming man, whether he spends his time playing in the garden or giving real help to his father in field or shop. There is no better protection for other clothing, which these may even replace. They are made of denim, hickory, and other wash materials, and can also be made of woolen goods, if desired.

The pattern (6504) is cut in sizes 4, 6, 8, 10, 12 and 14 years. Medium size requires 2 1/4 yards of 27 inch material.

To procure this pattern send 10 cents to "Pattern Department," of this paper. Write name and address plainly, and be sure to give size and number of pattern.

LADY'S ONE PIECE SKIRT.

This late model is arranged in the swathed style that is at present so popular. The material forms little folds at each side of front and back, providing fullness below, while the overlapping edge of the front is sharply cut away to form a point near the top. The waist line may be high or regulation. The style is excellent for such fabrics as cheviot, serge, wool, sponge and the like.

The pattern (6473) is cut in sizes 22 to 30 inches waist measure. Medium size requires 2 1/4 yards of 54 inch material.

To procure this pattern send 10 cents to "Pattern Department," of this paper. Write name and address plainly, and be sure to give size and number of pattern.

CHILDREN LOVE SYRUP OF FIGS

It is cruel to force nauseating, harsh physic into a sick child.

Look back at your childhood days. Remember the "doan's" mother insisted on—castor oil, calomel, cathartics. Now you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Adv.

Of a Wild Nature.
Just outside the entrance to the yard at the Naval academy is an apartment house where many young officers live, and baby carriages are a not infrequent sight in this vicinity.

Not long ago the commander of the yard had a notice posted on one side of the gate forbidding automobiles to enter, because they frightened the horses. Shortly afterwards the following unofficial notice appeared on

"Baby carriages and perambulators not allowed in this yard. They scare the bachelors."

IF HAIR IS TURNING GRAY, USE SAGE TEA

Don't Look Old! Try Grandmother's Recipe to Darken and Beautify Gray, Faded, Lifeless Hair.

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well-known druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant.—Adv.

Don't believe all you hear. Lots of defaulting bank officials have never been Sunday school superintendents.

One remedy with many uses—Hansford's Balsam of Myrrh. Adv.

There is no effect without a cause. The girl with pretty feet never gets the bottom of her skirt muddy.

Wornes expelled promptly from the human system with Dr. Freery's Vermifuge "Dead Shot." Adv.

Some self-made men evidently did the job in the dark.
