RECORD BREAKING MONTH OF BIRTHS AND DEATHS

The Vital Statistics Law has already passed the fondest expectations of its advocates and supporters. For the month of June there were turned in to the State Board of Health 10,288 certificates of births and deaths. The month of May was also a record breaker. 9,558 certificates were collected that month as 7,887 for April, 7,008 for March and 4,847 for February. These figures tell better than words how our people are taking hold of a new law which means that they will no longer be born into this world and die like so many horses or cattle without so much as an official record of their entrance or exit. These official records will be worth many times their cost in straightening out legal entanglements regarding descent, age, inheritance and various legal rights to say nothing about their value from statistical and public health points of view.

Merchant,

think everybody knows you and knows what you have to sell you are mistaken. People move into town almost everyday who never saw or heard you. Those people are obliged to trade somewhere and they are going to trade with the fellow who gets there first with the goods. A big itemized AD in the HERALD is the best solicitor you can possibly employ.
