OUR BOYS IN FRANCE AND HOME PROTECTION

The mon on the firing line represent a pick of our American youth. One in

His Standard Lines for small block of wood, stud-

says that a stirl failer finance, and cast it aside with time going and the memory . "That alo't it." Walk-regime the not ing farther, he stooped and brought up a scrap of paper, scanned it, and Ge pumpkin, the fod an't it." A third pause a minute

later brought his attention to a cigarette stub, but closer scrutiny brought the same rejection, "That ain't it." His captain stood within hearing,

watching the draft soldier closely. It was apparent the young man's mentality was wavering. The guard was called, and the patient was sent to the tality hospital. The next day the captain went to the hospital with the patient's discharge papers. On their delivery the sufferer held the papers up to the light, examined them closely, and then announced : "That's It."

MOTHER!

Have you ever used MOTHER'S JOY SALVE for Colds, Coughs, Croup and Pneumonia, Asthma, and Head Ca-tarrh? If you haven't get it at once. It will cure you .- Adv.

Conservation. "This motion picture producer has the right idea." "How is that?"

Theoretically, alcohol is both a innetical offities have concerned, it is patters of medicine nor a food. Dis-cussing it as a medicine, alcohol be-minim for group in which there are informe ecoutte, epinephrin and ex-brack of thyroid. These medicines are so powerful that they are but Narely used.

"Physicians know so life about the nechanism of the sympathetic nervous system, on which most of the efthat none of them is liaole to be generally used within the next few years. In the meanwhile, the old-time uses of alcohol for medicinal purposes have either been discontinued or else they are condemned by the medical profession.

"Alcohol once was used for consumption. It is not used as a cure for this disease now. It once was used as a remedy for blood poisoning-septicaethat its use lessens the chance of re-covery from these diseases. It once was used as a cure for coids and broachitis and as a preventive of pneumo-nia. It now is known that it makes colds worse and it increases the chance min

"It formerly was used as a cure tor at tormery was used as a cure for sanke bite. It is not so used now. It decreases the bodily resistance to sanke bite. The only good it ever did was to destroy the awful fear which sometimes shocks persons who have been bitten, and in that way indirectly

contributed to cure. "Alcohol formerly was used for shock on the theory that it was a stimulant. It is not a stimulant. It prevents fear and may in that way do good; otherwise it does harm. Its use in shock is being discontinued. Am-monis and coffee are taking its place.

"It is widely used for the discom-forts of natural bodily functions. Phy-sicians condemn its use for this pur-pose as being unscientific and harmful. There is a notion that gin is good for the kidneys. There is fothing worse for the kidneys than gin.

"Alcohol is disappearing from first-aid cabinets, physicians' satchels and hospitals. Within a few years it will disappear from that part of drug stores devoted to the filling of pre-scriptions."

WHY NOT PROHIBIT WATER?

A letter clipped from one of the New York moraing papers has been sent us for publication. The writer urges that water should be prohibited as it causes the deaths of thousands of people by engendering typhoid and other diseases. This reasoning is typ-ical of much that emanates from the linear traffe. Water does not cause ical of much that emanates from the liquor traffic. Water does not cause disease. It has ever poisoned any man. It is only when some poison inte typhold pollutes the water that there is danger. The remedy is to prohibit or do away with the poison not the water. And this, mays Tem-perance, is precisely what modern san-itary science is trying to do. We ho longer confine our efforts to the mar-ing of the victims of typhold, we seek to prohibit or destroy the cause. The efforts of temperance people to do away with alcohol as a beverage is perfectly logical because alcohol is a harmless as water only lunatics would perfectly logical because alcohol is a polsonous drug. If alcohol were as harmless as water only lunatics would

and cover with bolling water well -. ()) salted, to cook until tender. Put a layer of the cooked macaroni in a cas-serole of granite baking dish, add bits of the cooked hamburger, a little juice and celery salt, a little broth or butter and water, repeat until

the macaroni is used. Place in the oven and bake for a half hour. Green peppers and tomatoes may be used for seasoning, if so desired. Where chestnuts are plentiful they may make most dainty, nutritious, and

the same time, attractive dishes, Chestantis contain carbohydrates which ased cooking to make them more easily digested. Score the shell and drop them into a hot frying pan to blanch, when blanched remove the shell and thin brown skin and the aut is ready for various uses. Cooked until tender, mashed and seasoned with fat which it lacks, salted and peppered, it may be served as a vegetable with steak.

Chestnut Cakes.-Shell and blanch some good chestnuts, then cook in bollsome good chesinuts, then cook in boll-ing saited water until tender. Itub them through a sieve and to every half cupful add the yolk of an egg, sait, white pepper, celery sait, and onion julee and Worcestershire sauce, to season highly. Make into neaf cakes, brash with beaten egg, roll in fine crumbs, and fry in smoking hol fat. Serve as meat.

Mock Mashed Potatoes.-Cook a pound of chestauts for a quarter of an hour, peel and skin them, and cook in a quart of milk until very soft. Add In a quart of milk onth vory soft. And two tablesponfuls of builter, one tes-sponful of sugar, and a tesspoonful of sait. Rub through a sieve and serve the same as mished potates. This makes a nice vegetable to serve with chicken, and it has the additional advantage that it can be eaten by those to whom potatoes are dealed.

Have you noticed that the women who have system in their work almost invariably appear to have the least to do?

FOR THE INVALID'S TRAY.

For the whimsical painte of an invalid a dainty is more acceptable, whatever it may be, if

whatever it may be, it served in some unusual form. For the busy housewife who has but one pair of hands to perform all duties, time is a most valuable asset, a most valuable asset, and she has little for frills, However a few minutes spent in gar-nishing and arranging a dish will make all the

difference between receiving and eat-ing it with anticipation, or refusing it altogether. So many fetching things may be done with ordinary

Cantonment Road Building. road A record-breaking plece of building recently was completed in connection with the army cantonment at Louisville, says an exchange, which

continues: "This is one of the few military establishments that have built perma nent roads. In 63 working days the contractor completed 03,300 square vards of Trinidad asphaltle concrete highway laid on a concrete base, or about six miles of road 18 feet wide, A mile of the road was over a fourfoot fill, and immediately upon its completion a traffic count showed that 4,000 vehicles passed over it within the first hour. Most of these vehicles were motor trucks and wagons carrying loads of from one to five tons. The

record . . . is all the more remarkable in view of the fact that it was necessary to haul and crush all the stone used in the work." **GREEN'S AUGUST FLOWER** has been a household panaces all over the civilized world for more than half

a century for constipution, intestinal troubles, torpid liver and the generally depressed feeling that accompanies such disorders. It is a most valuable remedy for indigestion or nervous dysremeay for indigestion or nervous dys-pepsia and liver trouble, bringing on headache, coming of up food, paiplis-tion of heart and many other symp-toms. A few doses of August Flower

will immediately relieve you. It is a gentle laxative. Ask your druggist. Sold in all civilized countries.—Adv. Defeat. Two little girls were playing togeth-er. Said one little girl : "My father owns all the houses the world, and my mother has a mil-

on diam The other little girl eyed her thoughtfully. Well, I've got on a red dress," she

sald. Complete silence on the part of the first little girl. There was nothing more to be said.
