The Cleveland county fuel administration committee, Mr. I. C. Griffin of Shelby, chairman, has at the instance of the state fuel administrator, recommended prices for wood in Cleveland. The recommendation, which will doubtless be confirmed by the state fuel administrator, is as follows:

Wood on wagons per cord, \$4.00; delivered on cars, on railroad sidings, \$3.00. This is for four and eight foot wood. Seventy-five cents additional per cord is allowed for sawing wood, 50 cents additional for splitting. This would make a cord of wood sawed cost \$4.75, sawed and split \$5.25. For delivery, \$1.00 per cord or 75c for half cord or 50c for quarter of cord is allowed. Total \$6 for cord of wood sawed, split and delivered by dealers. For a half cord the charge will be exactly half except for delivery, which will be 75 cents for a one horse load, not less than a quarter cord, the delivery charge will be 50 cents.

This is an increase, as authorized, over 1916 prices and is believed to be fair. It must be understood, however, that these prices are per cord not for a load, to be guessed at. When a cord of wood is used for it must contain 128 cubic feet.

The price fixed by the administration is a little higher than most folks in Kings Mountain have been called upon to pay so far and here's hoping that those who sell wood on the local market may continue to be satisfied with fifty per cent advance over normal prices. Two years ago 75c and a half was standard price for good wood delivered at your back door in Kings Mountain. We now pay anywhere from three to four dollars per cord. We don't blame farmers for asking a reasonable advance on wood but the plan adopted in some places is treasonable. Let Kings Mountain continue to keep below the high water mark on wood as well as everything else.

IF you want what you want when you want it—in the printing line—WE HAVE IT!

VINOL MAKES GOOD BLOOD

Positive—Convincing Proof

Many so-called remedies for anemia are only so in name. Their makers are afraid to prove their claims by telling what their medicines contain.

The only way to be honest with the people is to let them know what they are paying for. Here is the Vinol formula. When the doctor knows what a medicine contains, it ceases to be a "patent" medicine.

It Cod Liver and Beef Peptides, Iron and Bismarck Pyrophosphate, Iron and Ammonium Citrate, Lime and Soda Glycophosphates, Cascaria.

Any doctor will tell you that the ingredients of Vinol, as named above, will enrich the blood and banish anemia and create strength. When the blood is pure and rich and red, the body is strong and robust.

You can prove this at our expense because your money will be returned if Vinol does not improve your health.
