Belk, one the most substantial and patriotic citizens of the community, is superintendent and has been for the past two years Among the announcements at the service Sunday to be given out by the superintendent was a prayer service to be held Thursday afternoon in the building at which Rev. J. E. Berryhill of Kings Mountain was to officiate. The service being announced was of a patriotic nature held in response to the call of the President that the Ameri can people meet at their respective places of worship on this day and implore God Almighty to bring the great war to an end Mr. Belk is said to have grown very eloquent in his patriotic utterances and insisted most ur gently that the people turn out to this meeting. He is said to have made the remark that every body was not able to buy Liberty Bonds or War Samps, but all could turn out to their places of worship and do their bit there and whoever failed was a slack er. At this point W. Daley King is alleged to have interrupted the speaker by saying that a man could be just as patriotic about his plowing as he could by observing the service under discussion. After Sunday school had adjourned King is said to have called Belk to one side in the yard and to have demanded that Le 'take back' what he had said. Belk is said to have answered that it was utterly impos sible for him to do so and was making a start to explain the matter further when King knocked him down and kicked hun. Onlookers are said to have stopped the affray. Belk with others munity, as a whole, is one of the

MERCHANTS MUST OBEY FOOD RULES

When the new order restricting the merchants to sell flour to the city trade in 24 lb. bags and the tural customers in 48 lb bags went into effect I found a great number of merchants had only 98 lb. bags on hand and could not secure bags to resack it and consequently I granted them a temporary exception to this ruling until they could secure bags to resack it. This is to serve notic on one and all that I have revoked their permit to sell flour in 98 lb bags. Now a few merchants have been selling 98 lb bags and allowing two men to sign for it, this too. is a violation of the food law because the food law says: "That flour cannet be sold in bags larger thau 48 lb", and still a few merchants persist in selling flour without an equal quantity of other cereal substitute. now, sooner or later we will catch you at that and when we do you know the consequenc , now, we lay any claim to having the are going to enforce the law.
