The Fourth Day of July, America's one hundred and forty second anniversary of Independence, was observed and celebrated by more people and by more nations than any other day in the history of the world. Almost every nation in the world, except the German Allied nations, paid honor to the United States for its great accomplishment in prosecuting the war in one year's time. The hope of victory lies in the mighty power of the war resources of the United States and the nations of the world acknowledged it to be so by their actions in celebrating the independence day of the United States. America did more in preparing herself, and for her allies, for carrying on the war than either France or England thought was possible in so short a space of time. She has amazed the world by her ability to call, to train ready for battle and to transport to France over one million soldiers and, especially, the fact that it is bound to make the Kaiser see the certain downfall of German autocracy. Another thing that our allies are proud of, is that America's shipyards are turning out shipping at such a rapid rate. Over one hundred ships were launched on the Fourth. The shipbuilders almost doubled the amount of shipping that they were expected to construct by the Fourth of July.

In this world there are two elements of mankind—good and evil. There always has been since the day when Cain slew his brother Abel. Maybe a theologian could antedate that, but certainly the two elements are prevalent throughout the entire inhabited world today. They are in a constant dual. The better element wants law and order the evil do not want it. The evil want the law applied to everybody and everything that would hinder their progress in any way but when it comes to putting the screws where it pinches their toes they wreat and squirm. Read again that scriptural incident where Paul Silas preached undisturbed until they had performed a miracle that interfered with the money making propaganda of some evil men. The same elements exist in Kings Mountain today. There are those who object to the enforcement of the law and because we have a policeman who tries to enforce the law they are forevermore after him trying to oust him. The Herald sincerely believes that the law abiding element in Kings Mountain is in the majority and want to see the laws enforced without respect of persons. We believe too that the element of good people in this town is lending and will continue to lend moral support to the officer of the law who sincerely tries to do his duty. Let us not be careless about this matter but assert ourselves in favor of a rigid enforcement of all the laws on the book.

## ALL SUGAR DEALERS MUST ACT QUICKLY

Those Who Do Not Make Statements to Food Administration by July 15 Will Be Cut Off From Sugar Supplies.—Hotels, Boarding Houses and Institutions Are Included.—Special Provision For Wholesalers and Jobbers.

Raleigh—All sugar dealers and all users of sugar, including whole sale and retail merchants, hotels, boarding houses and restaurants, hospitals and other institutions and bakers will be able to purchase sugar after July 1 only upon certificates furnished by the Food Administration after the dealers or users have made statements of their requirements to the Food Administration upon blanks which are provided for this purpose. Those who do not make such statements by July 15 will be refused any certificates at all.

In order to prevent any interruption to the normal flow of sugar to the trade, the Food Administration will issue certificates to the wholesalers and jobbers in order to give them 30 days supply of sugar including the supply they have on hand already.

It is important that sugar shall be available for canning and preserving purposes at this season and it is the desire of the Food Administration that all wholesalers and jobbers shall immediately take steps to secure certificates for their 30 days supply of sugar. After they have used these certificates they will purchase sugar from brokers or peddlers upon certificates which they will receive from retailers.

### Dealers Must Keep Records.

All dealers are required henceforth to keep an accurate record of all sales of sugar, this record to embrace the name of purchaser, quantity and price. Every wholesaler, as well as retailer, is required to keep these records and every pound of sugar sold must be accounted for. The records are to be kept subject to the inspection of representatives of the Food Administration, or may be required by county food administrators.

### WOULD INCREASE THE SUPPLY OF POULTRY

Raising of All Pullets Would Greatly Increase Egg and Meat Supply—More Money for Farmers.

Raleigh.—The Food Administration is backing up and encouraging in every manner possible the efforts of the Agricultural Extension Service in promoting the poultry industry in the State. It is urging all farmers to save every pullet possible, disposing only of cockerels at this season for broilers and frying chickens.

It is pointed out that there are greater possibilities for increasing the meat supply through the raising to maturity of chickens than there is through the increased production of cattle and hogs, the so-called meat animals. At present and prospective prices of poultry and eggs foresighted farmers cannot do otherwise than raise to maturity every pullet that they can maintain. The pullet which will sell today for 40 cents will produce eggs to the value of several times that sum during the winter or spring or can be sold as a matured hen during the winter for two or three times that sum.

### GRAHAM FLOUR FROM NEW WHEAT WILL BE POPULAR

Raleigh.—The grinding of new crop wheat into graham flour is being encouraged by the Food Administration. In some sections of North Carolina the new wheat is reaching some of the mills already. Most of the mills refuse to handle the new wheat except in very small quantities on account of its poor milling condition.

The Food Administration is anxious that no further wheat flour shall be imported into the State and for this reason, and for the additional reason that mills find it exceedingly difficult to grind new wheat and get the extraction which they are required to get, is encouraging the grinding of wheat into graham flour. Whole wheat graham flour from the new crop wheat is sweet and wholesome, having a distinctive flavor which makes it exceedingly palatable and promises to make it very popular.

### STATEMENT FROM FOOD ADMINISTRATOR HOOVER

"If you could stand in the middle of Europe today and survey the land to its borders, you would discover its whole population of 400,000,000 human beings short of food. Millions of people in Poland, Finland, Serbia, Armenia and Russia are dying of starvation and other millions are suffering from too little food. Our Allies and the neutrals are living on the barest margins that will support life and strength.

"This, the most appalling and dreadful thing that has come to humanity since the dawn of civilization, is to be the outstanding condition of German militarism."

# Three Pointers

IN BUYING MERCHANDISE

1. Distrust the house that claims to give something for nothing, or is always offering goods at less than cost. There's a bite somewhere.
2. Avoid the man who always has the best at the lowest price. He will go broke if he honestly follows that course.
3. Stick to the house that guarantees you an honest dollar's worth for a dollar. This is the only basis on which a Mercantile business can stand. And at that the house must have a reasonable profit in order to live and do business.

IN OUR LARGE STOCK OF GENERAL MERCHANDISE you will find almost everything you need in your home. You won't find everything at "less than cost," because we can't sell it that way. But you will find many rare values in Honest Goods.

We ask you to compare our goods and prices with those of any other house, and we will cheerfully abide by your finding. We are here to serve you honestly and faithfully. We have a big stock of Dry Goods to select from.
