In the death of Colonel Theodore Roosevelt passes from the stage of action a man who in his time had enjoyed probably greater popularity than any other man alive and has had but few rivals since. He was a most active man in many ways. He enjoyed distinction as a politician, an author, naturalist and statesman. He probably reached the zenith of his glory in the sending of the United States fleet around the world during his tenure of office of president of the United States which office he held for seven years. He was the recognized leader of the republican party for a long number of years broken only by his short-lived effort of launching and leading the progressive party. He possessed many traits of character that tend to greatness and even his most pronounced political opponents gladly acknowledge his admirable qualities. Ex-President Roosevelt lived what he styled the "strenuous life" and fell on sleep at the age of sixty. He was frail as a child and never did gain the physique equal to his mental achievements and physical ambitions.

ROLL CALL CONTINUED

The Red Cross Christmas Roll Call was a disappointment throughout the nation and the time limit was extended until January for further enlistment. The Kings Mountain chapter set as its goal \$1500 in its jurisdiction which includes the Grover auxiliary but up to date only about \$500 had been reported. It seems that a majority of the people think because hostilities have ceased that no more money is needed. They forget that we still have an army of occupation, hundreds of wounded soldiers in hospitals and untold amount of relief work yet ahead.

The local chapter had a meeting Tuesday and decided to continue its campaign until a complete and thorough canvass of the territory is made. Let the folks wake up and enlist.

FROM FRANCE

Mr. W. P. Fulton,
Kings Mountain, N. C.

Dear Friend:—

I suppose you had slated me as holding down a line on the casualty list but on the contrary I am 10 pounds heavier and feeling fine.

I am still with the Signal corps supply depot in charge of the Radio storage batteries, charging plants and electric plants, etc. The same work I was doing when I wrote you from Paris during the Chateau Thierry drive. My work over here has been very interesting, similar to that I followed before the war.

After the Chateau Thierry drive we were moved up to the town of Coulommiers and from there to an advance supply depot near St. Mihiel. At that place we were sure reminded that there was a war on. We were located along side of two large evacuation hospitals. They drained the hottest part of the sector. By us day and night was a steady line of field ambulances loaded with our boys in all different stages between life and death. Full ambulances coming in and empty ones going back, full supply trucks going up and empty ones coming back. And with these were officers cars, dispatch bearers on motorcycles, heavy guns and ammunition trains all on the same road day and night but mostly night, and not a light to be seen for a light generally means a bomb from the air. Imagine a main thoroughfare of New York at its rush hour suddenly turned to pitch darkness and every one in a mad rush to go some where and you have a main road following up an advancing army put the whole thing together with a heavy thunder storm and you have it, music and all. For several weeks we worked night and day almost, getting out orders in the day and loading trucks for the front at night.

However I draw a lucky straw. Work is work but the credit for the whole thing belongs to the men at the guns. We knew where we were going to sleep and eat they didn't. We later moved to Parois 20 miles west of Verdun to supply the Argonne where we are now. The outfit I was with is now in Germany.

Your Friend,
Chester M. Larns.

Feeble Old People Vinol is What You Need

because it contains the very elements needed to replace weakness with strength, viz: Beef and Cod Liver Peptones, Iron and Manganese Peptonates, and Glycerophosphates, with a mild tonic wine. This is a splendid combination to restore strength, vitality and vigor. It has given ninety percent satisfaction for sixteen years. **HERE IS PROOF:**

Malone, N.Y. "I am 84 years of age and got into a feeble, weak and nervous condition so I could not sleep. Vinol has not only built up my strength but it has given me a good appetite and I sleep all right now. Without doubt Vinol is the greatest strengthener for old people obtainable."—Mrs. S. B. Wells.

Winchester, Va. "I am a farmer's wife, 75 years of age, and pneumonia left me in a weak, run-down condition, so I could hardly keep about and do my work. A neighbor brought me Vinol and it has built up my strength so fast that I think it is the best medicine I have ever taken."—Mrs. Jennie Chapman.

For all run-down, nervous, anemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

SHOES FOR ALL THE FAMILY

We are devoting most of our time and thought to SHOES. We find that there is an ever increasing demand for Good Shoes. People want Good Shoes in preference to cheap shoes. Thoughtful people have come to realize that no shoe is cheap in the long run if it is no account. A good shoe will ordinarily wear twice as long as a sorry one. The

GOOD SHOES LOOK FINE AND STYLISH

while sorry shoes never look nice even when new. A GOOD Shoe doesn't cost as much as two sorry ones but will ordinarily outwear the two poor shoes. Any way you look at it the Good Shoe pays. Realizing this we are carrying Good shoes and those who have acquired the habit of buying shoes of us keep up the practice because they have learned that it is economy to wear the BEST even if the initial cost is a little more.

WHAT A BANK DOES FOR YOU

It Keeps Your Money Safe

When you put your money in the Bank the bank gives you a receipt for it. If you want to use any of it all you have to do is to write a check for the amount and the bank pays it and keeps the balance until you need to write another check or until you call for it. Your money in a bank is just as safe as the bank itself.

Your Check Is A Receipt

When you pay your bills by bank check the check itself serves as a lawful receipt against the account. This feature of banking alone is worth all the trouble that dealing with the bank brings anybody.

It Puts Money Into Circulation

When several hundred people put a few dollars each in the Bank it means that several thousand dollars is put into circulation that would otherwise be buried in an old pot, tied up in an old stocking or stowed away where it would do nobody any good.
