HIGHS PLAY CHERRYVILLE HIGH HERE TUESDAY NIGHT

(By Martin Harmon)

Tuesday night at 7:30 Cherryville Invades Kings Mountain to play their annual doubleheader here. As usual the game will be played at Central Auditorium.

Cherryville, one of Kings Mountain's outstanding rivals, and the Mountaineers, in the meeting there sometime ago, the girls spurred into the lead in the second quarter and were never headed afterwards, but the small boys' squad was no match for the tall Cherryville brigade.

Naturally, the girls mean to add another victory over Cherryville and the boys will endeavor to wipe out the licking received in the Cherryville city.

The girls ledger shows two wins and four losses as does the boys record. While not indicative of pennant winning squads, it must be remembered that there are still eight remaining games and none of the defeats have been by overwhelming scores.

The boys game at Cliffside tops the Shelby-K. M. girls contest as the season's thriller. It took two extra periods for the Mountaineers to win the verdict 21-20. Tommy Reynolds was the hero of the hour, his one goal being the deciding factor. It was a long shot from the side and caused an instant hush to fall over the dejected Cliffside fans.

Southern Resorts Shown In Ry. Dining Cars

Atlanta, Jan. 29.—In an endeavor to add a "homey" atmosphere to the interior of its dining cars the Southern Railway System has recently supplied its cars with large metal frames for the display of attractive photographic reproductions of Southern resorts which include scenes of Western North Carolina, Florida, Augusta and New Orleans hotels and resorts. Only views of resort hotels and other scenes in connection with these resorts are to be displayed in the diners, states, F. L. Jenkins, passenger traffic manager of the Southern.

We have had much favorable comment concerning this innovation says Mr. Jenkins, and we hope to feature all of the principal resort cities in our southeastern territory.

DUCK!

Baseballs Fly From Screen In

When you attend your local theater some night and the man at the door hands you a pair of celluloid glasses, don't throw them away—for you are going to need them to enjoy Pete Smith's short for Metra-Goldwyn Mayer, titled "Audioscopiks", coming Feb. 6, 7, and 8th with Shirley Temple's latest picture to the Dixie theater. Don't be frightened by the name, for it is not a wild animal picture but one featuring the third dimension with sound.

Through the celluloid glasses you will be able to see:

A baseball pitcher throw a ball that will make you duck to keep from being hit.

A man spluttering seltzer water in such a way that you will throw up your hands to keep it out of your eyes.

A musician playing a trombone and the slide poking in the face.

The reason for all this is the use of the two-eyed camera—one having two lenses instead of the one used today by the motion picture camera.

LET US DO YOUR JOB PRINTING

TRENCH SILOS INCREASE WINTER MILK PRODUCTION

Over 500 farmers sold three million pounds of milk to the cheese factory at west Jefferson to be processed into 290,000 pounds of fine cheese, says F. R. Farnham, dairy extension specialist at State College. This is the largest volume of milk delivered to the factory since it was established in 1929 and the cheese production was upped 40 per cent over 1934.

Farnham says the income from milk was increased 60 percent for the winter and much of this is due to the construction of trench silos throughout the area during the past year or two.

BOT FLIES IMPAIR HEALTH OF HORSES

Infestations of bot flies, which greatly impair the health and efficiency of workstock, are far more prevalent in North Carolina than most farmers realize.

The bots, or larvae of the fly, often get into the stomach and intestines of horses and mules to such an extent that they interfere with the digestive processes.

Animals infested with bots during the cold weather months should be treated internally by a veterinarian, said Dr. C. D. Grinnells, Veterinarian of North Carolina Experiment Station at State College.

In summer, the eggs or nits deposited on the animals by bot flies should be removed by clipping the hair or by washing the affected parts with a disinfectant, he added.

LEGION TO MEET TUESDAY NIGHT

The regular meeting of Otis D. Green Post for February will be held at the Woman's Club building on Tuesday, February 4th, at 7:30 p. m. We are counting on a large attendance of our members and other veterans.

Information regarding payment of the adjusted service certificates together with application blanks to be used may be had at this meeting. We hope to have someone present to assist veterans in filling out their application blanks.

After our business session the following program committee will have charge: Dr. W. L. Rameur, chairman; C. E. Warlick, L. C. Dettman, Troy Carpenter.

They have promised is a real entertaining program and refreshments, too. Come along, "Buddies," let's make this the best meeting of the year.

Legionnaires from other Posts and all Veterans are invited.

J. E. Garvin, Commander.
P. G. Ratterree, Adjutant.
