

**GROVER NEWS**

By Mrs. B. A. Harry

Grover, N. C., Oct. 28.—Mr. and Mrs. Guy Sipe of Asbury Park, N. J., spent the week end with their sister, Mrs. George Mullinax as they were on their way to their summer home in Miami, Fla.

Mrs. C. F. Harry attended a handkerchief shower at the home of Mrs. Byers in Blacksburg, which was given in honor of Miss Gladys Westbrook who is to become the bride of Mr. David Lowrance Harry of this place.

Miss Etta Mae Conner was a fair visitor in Charlotte Saturday.

Mr. Dock Bell and friends of Salisbury and Mrs. Tom Kennedy and daughter, Miss Ethel, were dinner guests of Mr. and Mrs. J. H. Bridges Sunday.

A special State Mission program was observed at the Baptist Sunday School last Sunday. An original play and a demonstration of the Co-operative Program was given.

Mrs. C. B. Harry and Mrs. C. F. Harry were joint hostesses at the home of Mrs. Harry on Harry avenue for their Sunday school classes.

The Hallow'en idea was carried out throughout the evening of Oct. 19.

Miss Odessa Black had a pleasant visit to Blowing Rock last Sunday.

Mrs. Annie Rollins is indisposed at her home on account of hoarseness.

Mrs. Chas Everett went to Charlotte today to consult a specialist.

Mrs. Alva Bridges returned from Chesney Sunday where she had been visiting her sister, Mrs. Harry Turner.

Frank Oates, Jr., of Rutherfordton visited his grandfather, Dr. Geo. Oates Sunday.

Mrs. Geo. Benson is spending sometime with her parents, Mr. and Mrs. C. F. Harry.

Misses Etta Mae Conner and Mary Black gave a miscellaneous shower for Mrs. Rush Pdggett, Jr., at the home of Mrs. R. D. Moss on Monday night. A large number was present and many beautiful and useful gifts attested to the popularity of the bride. Do's and Don'ts for the bride was the most enjoyable contest, and Mrs. D. A. Moss won first prize. A musical entertainment was rendered by Miss Odessa Black at the piano.

Misses Annette Blanton of Lattimore, Etta Conner and Mrs. D. A. Moss singing solos. A delicious salad course and hot chocolate was served.

Mrs. Joe Wharton, Mrs. Jim Jenkins and daughters, Misses Mary Jane and Ethel Keeter were visitors at the home of Mr. and Mrs. D. J. Keeter last week.

Mr. Willie Bridges and Miss Ruby Bridges of Shelby Second Baptist church are directing a singing course at the Baptist church this week.

Mrs. A. C. Baumgardner visited her mother at Ferndale Sunday.

Miss Lucy Crisp of Boiling Springs Jr. College spent several days at home with her parents, Mr. and Mrs. S. A. Crisp last week.

Not only do frogs like political speeches, but they try to imitate the speakers.—Miss Doris Cochran, reptile and amphibian authority, Smithsonian Institute, Washington, D. C.

**EAST KINGS MOUNTAIN NEWS**  
(By Mrs. M. L. Conner)

Billie Gantt is getting along nicely after having an appendix operation sometime ago. His many friends and classmates hope he will soon be able to be back in school.

Mrs. J. M. James is improving at this time and we hope will soon be able to be out again.

The ladies of the Missionary Society of Grace church are planning a supper for Saturday night. The proceeds will go toward painting the church.

Mr. Baxter Payseur spent the week end in High Point.

Mrs. Ida Baxter, Mrs. Gordon Baxter and daughters, and Lloyd Baxter of Cherryville were guests of Mrs. B. R. Payseur Sunday.

Mrs. B. B. Phillips and Miss Carry Phillips visited in Woodruff, S. C., Sunday.

Mr. and Mrs. Vernon Huffstetler and Mrs. Opal Ivester visited the latter's parents, Mr. and Mrs. W. R. Brooks at Lincolnton Sunday.

Mr. and Mrs. Vernon Huffstetler and Mrs. Opal Ivester visited the latter's parents, Mr. and Mrs. W. R. Brooks at Lincolnton Sunday.

made close, but it is always advisable to avoid leaving stubs that will necessitate the new bark growing up over the wound. When the wounds are larger than two inches it is advisable to cover them with a preparation of pure white lead and linseed oil, Grafting wax, Tree Tangle Foot, or a Bordeaux Mixture Linseed oil preparation may be used with good results.

Q.—How can I prevent my flock of purebred White Leghorns from producing eggs that have yellow tinted shells?

A.—These tinted shelled eggs is the result of a breeding factor either on the male or female side or, in some cases, both sides. There is nothing that can be done to prevent the production of such eggs this year, but if none of the tinted shelled eggs are used for hatching and new males secured for breeding next year from a source that does not show tinted shells the trouble should be eliminated. The yellow tint in the shell is not related to the number of eggs produced nor to the food value, but it is well to breed it out of the flock as soon as possible.

der must specify in his bid the amount of bonds of each rate. The bonds will be awarded to the bidder offering to purchase the bonds at the lowest interest cost to the Town, such cost to be determined by deducting the total amount of the premium bid from the aggregate amount of interest upon all of the bonds until their respective maturities. No bid of less than par and accrued interest will be entertained. Bids must be enclosed in a sealed envelope marked "Proposal for Bonds" and be accomplished by a certified check upon an incorporated bank or trust company, payable unconditionally to the order of the State Treasurer of North Carolina, for \$1,200. The right to reject all bids is reserved. The approving opinion of Masslich and Mitchell, New York City, will be furnished the purchaser.

LOCAL GOVERNMENT COMMISSION,  
By W. E. Easterling,  
Secretary of the Commission  
(Nov 12—adv)

**NOTICE OF SALE**

Under and by virtue of the power of sale contained in a mortgage given by W. M. Williams and wife, Effie Williams, to the undersigned, on the 12th day of March, 1934, registered in the Register of Deeds Office for Cleveland County in Book 148 at page 180, to secure the indebtedness therein mentioned, and default having been made in the payment of same, I will sell for cash at the Courthouse Door in Cleveland

**\$60,000 TOWN OF KINGS MOUNTAIN, NORTH CAROLINA PUBLIC IMPROVEMENT BONDS**

Scaled bids will be received until 11 o'clock, A. M., November 10, 1935 by the undersigned at its office in the City of Raleigh, N. C., for \$60,000 Public Improvement Bonds of the Town of Kings Mountain, N. C., dated November 1, 1935, maturing annually, May 1, \$2,000, 1939, \$2,000, 1940 and \$4,000, 1941 to 1954, both inclusive, without option of prior payment. There will be no auction. Denomination \$1,000; coupon bonds registerable as to principal only; principal and interest (M and N 1) payable in legal tender in New York City; general obligations; unlimited tax; delivery on or about November 20, 1936, at place of purchaser's choice.

Bidders are requested to name the interest rate or rates, not exceeding four per cent, per annum in multiples of one-fourth of one per cent. Each bid may name one rate for part of the bonds (having the earliest maturities), and another rate for the balance, but no bid may name more than two rates, and each bid

**N. C. Good Place To Raise Hogs**

North Carolina is well adapted to hog production, according to Earl H. Hostetler, professor of animal husbandry at State College.

The State has many advantages, he said, and three are particularly outstanding: temperate climate, nearness to market, and a good supply of protein supplements.

In the temperate climate, each sow can farrow two litters of pigs each year without her owner having to provide expensive housing during these critical periods.

However, some housing is necessary, Hostetler said, to protect them from the cold and rain in February and March and from the heat in August and September, the two best farrowing periods.

Producers living farther away from the markets have to pay more transportation charges, and the hogs undergo heavier shrinkage in transit. Eastern markets also pay higher prices than those in Chicago.

Corn is the cheapest and most satisfactory carbonaceous feed for fattening hogs, and plenty of corn is available in this State. Last year, more than one-fourth of North Carolina's crop land was in corn.

To get the best results in feeding, some nitrogenous or high protein feed must be fed with the corn. And here again North Carolina has an advantage in being able to secure fish meal, cotton seed meal, peanut meal, and soybean oil meal produced in the State.

**Farm Questions Answered**

Q.—Are minerals necessary in the ration of a dairy cow?

A.—Yes. The minerals that are used most by the dairy cow and therefore most likely to be lacking in the ration are calcium, phosphorus, and common salt. Legume hays, when grown on soils not deficient in lime will usually supply sufficient calcium. An adequate supply of phosphorus can be secured from the grain ration if it contains as much as thirty per cent of feeds rich in the material such as wheat bran or cottonseed meal. The salt should be supplied by adding one pound to each 100 pounds of the grain mixture, and also allowing the animal free access to it in the pasture or exercise lot.

Q.—Is it necessary to treat the wounds made on apple trees when they are pruned?

A.—Where the wounds are two inches or less it is not necessary to use any protective material. Pruning wounds heal more rapidly when

County, Shelby, North Carolina, on Monday, November 30, 1935, at 10 o'clock, A. M., or within legal hours, the following described real estate:

BEGINNING at a stone, Webber's corner, and runs with his and Gamble's line S. 69 W. 17.19 chains to a stone; thence N. 48 1/4 W. 24.00 chains to a stone; thence S. 37 1/2 W. 4.00 chains to a black gum; thence up a branch as follows: S. 42 1/2 E. 6.00 chains; S. 30 1/2 W. 1.17 chains; S. 38 1/2 E. 8.10 chains; S. 51 E. 1.78 chains; thence S. 4 E. 5.25 chains; S. 18 1/4 E. 10.00 chains; thence S. 35 1/2 E. 7.00 chains; S. 21 E. 2.68 chains; S. 5 E. 5.58 chains to a red oak in Webber's line; thence with his line N. 49 1/4 E. 38.48 chains to a stone; thence with his line N. 45 1/4 W. 13.50 chains to the beginning, containing 75 1/2 acres, more or less.

The sale will be made subject to all prior encumbrances.

This the 27th day of October, 1936.

ON DISPLAY at all Buick Showrooms

**SPECIAL CENTURY ROADMASTER LIMITED**

**FOUR WONDROUS NEW REASONS WHY: "It's Buick again!"**

**SENSATIONAL** is the fervor with which the American public has taken to its heart the brilliant motor cars offered by Buick this year.

Indeed, the sweeping success of the 1936 Buick program flatly challenged us and our great parent General Motors to a momentous decision.

Should we continue this amazingly popular line of cars into next year, perhaps the prudent thing to do—or should we dare broad improvement upon their spectacular excellence?

We felt there was only one right answer to that question, the bold and progressive answer—and that's why insiders now forecasting 1937 are already saying: "It's Buick again!"

That's why on top of \$15,000,000 recently spent re-tooling and re-equipping Buick's great plant, we appropriated and are now spending \$14,500,000 more.

That's why every car in the 1937 Buick line—the SPECIAL, the CENTURY, the ROADMASTER and the LIMITED—is a triumph visibly and intrinsically outranking anything we have ever done.

Each has more beauty for dazzling style, more power for breath-taking action, more room for full-family comfort, more downright "road-command" for safety and pleasure.

See them—then you'll know why Buick's soaring sales curve is headed for yet loftier altitudes next year.

**YOU'VE GOT WHAT IT TAKES! \$765**

You can afford the new Buick. It's easy to buy and thrifty to own. With all its quality, its phenomenal performance and stunning style, prices start as low as \$765 and up list at Flint, Mich.

General Motors terms to suit your liking. Safety glass included. accessories extra. Prices subject to change without notice.
