#### Time Was No Object

By IRVIN S. COBB

A COLORED man was idling along the sidewalk on the opposite side of the street from where the county jail stood. From a barred window high up in the structure across the way came the voice of a member of his own race:

"Say, nigger," called the unseen speaker. The pedestrian halted and faced about.

"Whut you want?" he demanded.
"I wants to ax you a question," said the invisible prisoner.
"Well, ax it. I's listenin'."

"Is you got a watch on you?"

"Suttinly I's got a watch on me."

"Well, den, whut time is it?"

"Whut is time to you?" answered the man in the street, without making any move to fetch forth his watch. "You ain't fixin' to go nowheres!"
