The Woman's Christian Temperance Union

(By Mrs. W. A. Parsons)

Perhaps some of the people do not know that the Woman's Christian Temperance Union has an organization in Kings Mountain. The work of the Union is only fairly begun, and so far little publicity has been given to it.

Perhaps many people do not know the extent and the far-reaching influence of this organization. It is working effectively in 50 countries. In a number of these countries there are prohibition laws that are enforced. In others the sale and importation of alcoholic liquors are restricted.

At the World W. C. T. U. convention held in Washington, D. C., last June 35 countries had representatives.

Do you know that the W. C. T. U. is celebrating the one hundredth anniversary of the birth of Frances E. Willard in 1939, and that a five-year education campaign is under way—1935 to 1939? Besides this education campaign a fund of \$1,000,000 is being raised by White Ribbons all over the country for carrying out this plan of Alcohol Education. With part of this money teachers and lecturers are being trained who may go out and teach the harmful effects of alcohol and other narcotics from a scientific standpoint. Part of this money pays the expenses of these workers who speak to students in high schools and colleges, who speak in churches and other organizations where young people are found. Part of the money goes for radio addresses and part for motion pictures. Much of it is used for literature which is widely distributed. All this is being done in order that all the people, and especially the young people and children may learn the evil effects of alcoholic beverages upon the body, the mind and the morals.

Our Union in Kings Mountain has a small part in this great work. This year we had the services of a trained young woman who spoke acceptably in two of our schools and in two churches, addressing the young people of all the churches at one service. Literature has been distributed. Temperance instruction has been given in the Sunday Schools and in Vacation Bible Schools. Our Union is also taking a part in raising the money asked of us.

With our money, our work and our influence we are trying to get people to see the danger in drink and to abstain from the use of it. It will take time, perhaps, a long time, but thousands of W. C. T. U. women all over the world are praying and believing that it will be done.
