TOM AND GEORGE

George: "Tom, wherever a person is born, that's what he is, isn't he? If he's born in Ireland, he's an Irishman; if in France, he's a Frenchman." "Yes," said Tom. "Well, if puppies were born in a balloon, would they be Sky Terriers or Airdales?" "Possibly so," said Tom, which brings the thought to us, that you can do as well, many times better at home, than you can away from home.

Patterson Grove Section

I have the best of intentions but it seems as if I'm always saying the wrong things. The trouble is, folks misunderstand. All I have to say here is in the spirit of fun. But if I happen to say anything that you disagree with, please tell me (not some one else) and I'll apologize if I think an apology is in order. Take last week, for instance, I was sure there wasn't anything for anyone to grumble about. Then came Saturday and a young man saying, "You know, Al, you make some folks mad with that little column of yours." He explained that I recently told of one family's guest and had failed to mention one girl's name. Well, the truth is, I'm not sure that I know her 'proper' name.

We find Romance! Rumor has it that one young man, whom we were about to consider a "woman-hater," (if there is any such animal) has fallen for a girl down Bethlehem way.

ed the stage where "the hero" brings the girl home to meet the folks. Getting pretty serious, me thinks!

Writing the words "We Find Romance" made me think of "Red." Remember how he used to sing those words when Aintcha Glad" was a new song?

I have good news for friends of Jacob Huffstetter of Lackey street. Jacob (Jake to his friends) has been in camps in Washington (State) for some time and in a recent letter to "Doc" he says he is coming home in March.

Special to teachers of Patterson Grove school: In a letter from Pearl Neeley, formerly of this section but now of Fort Mill, S. C., she said to tell you that you were the best teachers in the world. Now isn't that a compliment?!

A revival meeting will begin at Patterson Grove Monday Nov. 28th. Services will be held each night during the week.

The W. M. U. of Patterson Grove will meet at the home of Mrs. T. F. Ware Saturday afternoon at 2:30 o'clock.

Mr. and Mrs. Earl Falls spent Sunday afternoon with the E. V. Ross' of Oak Grove.

Mr. and Mrs. Thomas Horn were guests of Mr. and Mrs. Tom Ware of Oak Grove Sunday.

Miss Eva Hamrick of Bessemer City, was a week-end visitor of her grandmother, Mrs. Ella Hamrick.

Mr. and Mrs. Travis Wright announce the birth of a daughter, Nov. 17th.

Mr. and Mrs. Ben Ware announce the birth of a son, James Hurshell, October 31st.

Have You Any Extra Shrubby?

(Reported)

Don't you think that the new gymnasium needs shrubbery around it to make the school grounds more beautiful? Mrs. Weir's homeroom thinks that it does. They are preparing the soil and trying to secure shrubbery for beautifying it according to a plan that has been drawn. If you have any of the following shrubs that you will donate to this project, please call Margaret Ratterree at 86R: English laurel, Ligustrum, Phytol, Juniper, Nandina, English Juniper, Baker Art Juniper, etc. A member of the class will dig up the shrubbery that you wish to give and take it to the school building, if you wish him to do so.

If you prefer buying shrubbery for a donation, please consult Margaret Ratterree before purchasing it in order to determine the type of shrubbery most needed.

American Farms Show World's Most Forward

WASHINGTON, Nov. 21.—(IPS).—American farms have become mechanized in the world, according to S. H. McCrory, agricultural engineering expert.

Mr. McCrory pointed out that while the steel plow and grain harvester were invented only 100 years ago, gasoline tractors came into use less than 25 years ago and electric power on farms is even more recent.

"Today there are more than 1,250,000 farm tractors in use and electric power is available on 1,000,000 farms," Mr. McCrory said. "Huge combines that harvest 100 acres of wheat a day are common in the Great Plains."

There is a strong tendency, Mr. McCrory said, for engineering improvements to aid the family-size farm. Among recent developments are the handy general-purpose tractors and the "baby" combine grain harvesters adapted to small fields.

Build New Waterfall But Minus The Water

The natural attractions of Forest Park stands a new waterfall — without a drop of water. Construction of the falls was begun in April, 1937, and finished early this year — except for the water mains. It was built by WPA workers, and is surrounded by a garden.

Joseph M. Darst, Director of Public Welfare, explains that the city will have to supply pumps and piping for the water some time next year, for the WPA to install.

QUESTION BOX

What's the Answer?
By EDWARD FINCH

WHY DO WE TREMBLE WHEN AERAI?

TREMBLING when frightened is caused by the spasmodic working of the nerve force which flows between brain and muscle. There is a series of repeated tiny spasms throughout the nerves of the body causing an attendant reaction in the muscles which results in what we call trembling. Intense anger, joy and certain nerve illnesses will have the same effect.
