N. C. Leads In Syphilis Reported In September

RALEIGH, Nov. 29.—North Carolina led all the States in the Union in the number of syphilis cases reported in September, with 5,745. It was announced here by Dr. Carl V. Reynolds, State Health Officer.

Dr. Reynolds and Dr. J. C. Knox, Director of the Division of Epidemiology and Venereal Disease Control, State Board of Health, expressed themselves as being highly pleased with the showing, declaring that it clearly indicated cooperation among the doctors and clinicians in making reports.

"It also indicates an increased interest on the part of our citizens since the launching of the state's intensive drive against syphilis which has found expression not only in more thorough reports of cases but also an interest on the part of industrialists and those employing household servants in seeing that these undergo examinations."

New York, with a population of approximately 13,000,000 people, Dr. Reynolds and Dr. Knox pointed out in their joint comment, reported only 5,285 cases in September, while Pennsylvania, with nearly 10,000,000, reported only 1,252 cases, and Ohio, with nearly 7,000,000 only 1,417.

Farmer, Editor And Businessman To Talk Farm, Industry Relation

NEW YORK, NOV. 29.—(IPS).—This year, for the first time in nearly a half century of its existence, the Congress of American Industry will hear from a real "dirt" farmer his thoughts of the problems of the American farm and factory.

Lewis Morris of Grimes, Iowa, is the farmer who will bring to American industry the farmer's viewpoint of the relationship between agriculture and industry. The Congress of American Industry meets annually under the auspices of the National Association of Manufacturers. This year's sessions will be held here December 7 to 9.

His entire life spent on a Iowa farm, Mr. Grimes has never been engaged in any occupation other than farming.

Indicative of the increasingly important part which the farm problem is playing in industrial thinking, the invitation to Mr. Grimes to speak was extended early this month by Charles R. Hoon, President of the American Rolling Mill Co., and President of the Association.

The thoughts of industry on farm-industry relationships will be presented by Warren W. Shoemaker of Chicago, Vice-president of Armour and Co., and Chairman of the Association's Committee on Agricultural Cooperation.

KRITICAL MOMENTS AND HOWLARIOUS SCOOPS
(By The Tattlers)

Last week someone pulled a fast one on us. Or maybe we pulled a boner. Anyway, we came into the office to do our column last Wednesday just in time to see the paper going out the door into the arms of Red, on its way to the Postoffice. So this week we'll try to make up for it.

The guys and gals did various things Thursday and Friday and these respective nights. Betty Patrick decided to go to the show Thursday because of the rain. She went to see "Letter of Introduction" and had a good cry. It wasn't just an ordinary cry in any sense of the word. It was a good cry, and everyone who was in the show enjoyed it along with her. (We were there.)

Paul Jr. went to Maggie's Friday afternoon, and satisfied the inner man with cake. And all the football men seem to be enjoying breaking training.

Alice Betty had a House Party — (Death, death). So Fred and Bobby took Ladd along for an excuse and announced in our "lads" girls we don't

In a long bet we'd say that Fred know who Bobby went to see, but was interested in Sue and Junior went to see "Homer." The ladies also invited eight of the boys out Saturday night. Afterthought: Are Fred and Sue really serious?

Of all the folks who came home for the holiday, Bill Davis probably enjoyed his most. He was with Helen Garrison most of the time.

End Runs: (We hope we make it) Patsy is back ... prepare for an invasion from Shelby ...! Some of the younger (pardon us, Carolyn) set, enjoyed a skating party ... The Prince girls were in on it ...? week end ... Rachel Smith gave everyone a break by getting so hoarse that she could hardly talk for a couple days ... Hazel is so grateful to Mr. Summerow for something or other ...! Mr. Hamrick was home for Thanksgiving so Dot had company ... Betty Lou isn't smiling at a certain brunette because the said brunette stole her man ...!

QUESTION BOX

What's the Answer?
By EDWARD FINCH

WHY DO WE TREMBLE WHEN AFRAID?

TREMBLING when frightened is caused by the spasmodic working of the nerve forces which flows between brain and muscle. There is a series of repeated tiny spasms throughout the nerves of the body causing an attendant reaction in the muscles which results in what we call trembling. Intense anger, joy and certain nerve illnesses will have the same effect.
