Davidson High Grad Wins Freshman Medal
 (Reported)
 Arthur Turner Davidson, graduate of Davidson High School, Kings Mountain, one of the youngest freshmen to enter Johnson S. Smith university last year was recently awarded the Freshman Scholastic Medal, which is awarded to the member of the Freshman class on merits of the highest scholastic average and commendable conduct. Of the 75 or more Freshmen entering the university last year, representing almost every state in the Union, the young man from Kings Mountain held highest honors. The faculty feels justly honored to have the fruits of their efforts gain such high premiums and recognition for the Negro High School of Kings Mountain—thus revealing the type of work that the school is endeavoring to carry on.

RUBBER USES
 From 200 to 300 different kinds of rubber products are used in automobile construction, and at least 500 different varieties of rubber goods and products find non-productive uses in automotive plants. Rubber, as a silencing agent, has been a vital factor.
 The superstition about ill fortune following anybody who walked under a ladder arose from the fact that when a ladder leans against a wall, it forms a triangle, symbolical of the Trinity. A layman would feel himself debarred from walking thru so sacred an arch.
