KRITICAL MOMENTS AND HOWLARIOUS SCOOPS
(By The Tattlers)

This week we know you won't mind if we lay off the gossip long enough to explain the policy of the conspiracy of the "TATTLERS." First, we do everything in the spirit of fun. We don't mean to cast any reflections at anyone. We don't aim at belittling anyone's character. That is far from the principle of this column. Anyone who has any request to make of us, as to leaving their name out of the column need

OUT OF TOWN PRINTERS PAY NO TAXES HERE LET US DO YOUR PRINTING

only to say so, and we strive to please. In the past, we have had very little complaint, and in cases which we were convinced that we were wrong, we have done our best toward making amends.

We write this column for those who like a little informal chatter about themselves, and we alone are responsible for what we do or say. We flatter ourselves that you, the readers, tolerate it because you like it.

We have never made it our policy to do harm to those for whom any of us may have personal dislikes. On the other hand, we mention only those for whom we have only the greatest respect. We do not pretend that we are honoring anyone by putting their name in this column. We merely choose those whom we think have character enough to withstand our cracks without harm.

We hope to keep us this little informal and impersonal gossip, so within the future, please remember that we only aim at pleasing you.

OBSERVATIONS

(Observations of a Visitor, To The Best Town In The State)

By A. L. Bert
Kings Mountain is a coming town. If you don't believe it just watch our smoke!

The New Deal is going places. But Where? Getting back to Kings Mountain: We need a new hotel. The most crying need of the town is a new hotel. A place where we can entertain our guests. Strangers often judge a town by its hotel facilities, just like visitors judge a home by one's ability to entertain.

Whatever a new and modern hotel will cost Kings Mountain, it will be cheap. The cost should be of secondary consideration. Hotel facilities of a town should always be ahead of everything else, because that is the place where visitors are entertained and made comfortable, or otherwise. Largely, visitors get their impressions of a town from its hotels, just as a visitor to one's home forms impressions of the home.

As we said before: Kings Mountain is a coming town. It has one of the soundest Banks in the country. It has eleven cotton mills, with large payrolls. It has progressive mercantile establishments, a good newspaper, fine schools, beautiful homes, magnificent churches, attractive streets and sidewalks, lights, power, water, sewerage; a climate unsurpassed anywhere in the world, and best of all, a citizenship unsurpassed anywhere. Kings Mountain is surrounded by one of the best farming sections in the Piedmont.

In addition to all this, Kings Mountain is in the center of what bids fair to be one of the great gold-producing territories of the country. In addition to gold, other minerals such as lithium, tin, iron, manganese, mica, etc., etc., offer attractive possibilities for investment and exploitation. Better farm-to-market roads would be a profitable way to spend seven

or more million dollars. Just in case you had not noticed, Congress is in session again. The President plans another fishing trip.

This writer has an idea, which seems very unpopular these days, that work is the only way to create wealth. Of course, these are nothing new or original in this idea, but sometimes we stray so far from fundamentals that it is well to refresh our minds by repetition.

And this reminds us: That work creates buying power, and, inversely, buying power creates work. The logical conclusion, then, follows that a co-ordination of the interests of labor and industry would readily solve all of our economic problems.

The government index prices for farm products dropped two points during the past month, falling to 94 per cent of pre-war in mid-January as compared with 96 on December 15 and with 102 on Jan. 15 a year ago.

"My Skin Was Full of Pimples and Blemishes From Constipation" says Verna Schlepp: "Since using Adlerika the pimples are gone. My skin is smooth and glows with health." Adlerika washes BOTH bowels and relieves constipation that so often aggravates a bad complexion. At All Leading Druggists

In discussing fertilization of cotton on wilt land, the plant pathologist says: "Liberal applications of potash have significantly reduced the amount of wilt on both resistant and susceptible varieties of cotton in experimental tests conducted at various points in the cotton belt in recent years—Kainit and muriate of potash appear to provide the most effective sources of potash."
