Births In State Decrease

Raleigh, April 24.—There were 254 fewer births in North Carolina last month than in March, 1938, and 60 more deaths, according to figures just released by the Vital Statistics Division of the State Board of Health, of which Dr. R. T. Stimpson is the director.

Influenza deaths last month totaled 176 throughout the State, as compared with 75 the same month a year ago, while tuberculosis deaths numbered 157, against 135 a year ago, the report shows. There was also an increase in the number of deaths from cancer, the March, 1939, total having been 186, compared with 151 in March, 1938. Pneumonia deaths, however, dropped from 314 to 309.

Deaths from what are termed preventable accidents last month numbered 108, compared with 101 in March a year ago. Thirty people died of burrs, as against 25 in March, 1938, while fatalities from railroad accidents increased from 5 to 7. Suicides showed a decided drop—
