**TOM AND GEORGE**

Tom: "George, what would you call a woman who was so much in love with her divorced husband that she was saving up her alimony money to buy him a wedding present when they re-married?" "I would say she was a prize dumbbell with bats in her belfry." Maybe if he'd tried to keep their home in an attractive manner before they were divorced, that they'd not have to go to the trouble to try it again."

Since there is no danger now of autograph hunters and professional teasers, it might be a good idea to say that the bride to be was in town last week. One would ordinarily think that she is afraid to face the music, but she and the maestro were probably just trying to postpone so many congratulations until after August nish at eleven o'clock in the morning. If future brides are supposed to look happy, I guess that's enough said for Miss Crossland, for she looked just that. Mr. Hendricks was also wearing his best personality smile.

Comment has been made on the three churches on each of the three corners in town. It has been said that the Methodist church sings "Have You Any Stars in Your Crowns?" and the Baptist church answers with, "No, Not a One." The situation has been changed a little. Sunday the Methodist had the Lord's Prayer and the Baptist said "Amen." At least the song sounded like the Lord's Prayer from where I was sitting in the Baptist Church. This all leads me to think that Mr. Hendricks was in for about two weeks, and now that she is well again the whole neighborhood feels better.

only ones who enjoyed her singing, they are mistaken, for the Baptists were eavesdropping.

"Mikie" is the girl with the Georgia drawl who is visiting Dot Hoke. We understand that Mrs. Franklin D. Roosevelt gave her a personal audition. "Mikie" must have been a "bit of all right" because we're thinking of changing her name to "Franklin D. Roosevelt Barber." Looks like the southerners have placed somebody in the White House at last!

Miss Louise Morris played golf not long ago. It's a swell game, she says — only made her neck, back, arms, and legs sore. Instead of yelling "four," she kept counting to ten! Just as it takes patience to fish, it takes a sense of humor to play golf.

Someone has said that to love one's enemy is to love one's neighbor. They're the same thing, in other words. In some cases that might be true, but not in every case. All neighbors aren't or we wouldn't feel sorry when something happens to

# SUMMER SESSION

"I have," said Rev. L. Boyd Hamm one day last week, "the coolest office in town." "If you don't believe me come in, and I will prove it to you. Of course, I believed him, but just the same, I wanted to see the 'coolest office in town' and just how cool it was. He was right. In fact, he was more than right, because his office and the whole new addition to the Lutheran Church for that matter, are the most attractive I've seen. I liked the office so well that I almost forgot several other interviews which the editor had sent me out for. Mr. Hamm is justly proud of his new, cool building, but alas, he's cooling himself in a nice white hospital bed this week. We hope the Rev. is soon back to enjoy the office.

About two and one half miles from Cherryville, out on the Crouse road, I found that the farmers were still worrying about rain. Their cotton looked pretty good, but their corn looked stunted. Asked one of them if they'd been getting any rain. "Nope," came the surprising answer. "been pretty dry up here for sometime." But he had some beautiful watermelons.

Had the pleasure of being invited to the Ormand's annual reunion last Saturday, and to say that I enjoyed it is stating the case mildly. And we found that a little rain doesn't hamper the Ormands at all. In fact, the food didn't even get wet, but I can't figure out why not, because I did. So after the rain, just waded around without shoes.

Never having had a chance to explore the old Furnace before, it was really worthwhile looking it over, and seeing the chimney plate in the Ormand home just above the furnace. The plate in question was made in the furnace in 1788, which was, if you haven't got a short memory, just after the Revolution. In fact, the furnace was used during that war, for the molding of cannon balls.

But I suppose some of those fellows who drive Fords and pretend they're at Indianapolis think they should be tied.
