Washing! Greasing!

And Atlas Tires

Here To Better Serve You.

Service Station

A STATEMENT OF OUR POLICY

Ten years ago we started in business with one purpose in mind—to better serve the motoring public—and all during these years we have tried to do this. Now, with our New Modern Station with the latest equipment we will be better able than ever before to render a real service to all car owners.

We are proud of our new Station and we sincerely want you to come in and visit us, in our NEW home on our same old location. We will carry at all times a complete line of Quality Esso Products for your car, and we have experienced trained men who know how to service your car as it should be.

We appreciate every customer who has favored us with his patronage in the past and we solicit the business of those who have been trading elsewhere.

We pride ourselves on our Washing, Polishing, Greasing, and Tire Service, so when you are in need of prompt service, call us, as we are ready, anxious, willing, and capable.
