

THIS 'N THAT

Patterson Grove Section
 By Alice Burton
 August 12.—The revival meeting which began at Patterson Grove, August 7, closed Friday night with several additions to the church. Baptismal services were held Saturday morning at Mr. J. B. Patterson's pool.

Mr. and Mrs. Leonard Hicks of Bethany; S. C. were visitors of relatives here last week.

Jake Thornburg was able to go back to school this morning after being absent for several days because of an ear ailment.

Misses Eva and Mariel Hamrick of Adenville were guests of Mr. and Mrs. James Thornburg Thursday night.

Mrs. Ray Neely and daughter, Pearl, of Fort Mill, S. C. are visiting the R. M. Burtons.

Miss Mary Frances Ware went to Charlotte Sunday evening to spend several days with her cousins, Dr. and Mrs. L. E. Wall and family.

Miss Pearl Carroll of Bethany visited her grandparents; Mr. and Mrs. David Wright last week.

Mrs. G. W. Greene and children spent the week-end with Mrs. Greene's parents.

Miss Thelma Thornburg of El Bethel visited relatives here last week.

Miss Kathleen Goforth spent the week-end with Miss Mildred Ledford of the Phoenix Mills.

Misses Audrey Bridges and Eva Moor were Sunday dinner guests of Mr. and Mrs. C. P. Ware and daughters, Mary Frances and Lucille Ware.

Legumes Have Place In State's Pastures

Corn is the only crop grown more extensively than pastures in North Carolina. But pastures do not receive near the attention of corn, cotton, tobacco, small grains and other crops.

R. L. Lovvorn, State College agronomist, says that the expanded livestock program in the South that everybody is talking about depends on cheap feed, and pasture is the answer to that problem. With few

has ever permanently survived that did not depend to a large extent on grazing and hay crops, he says.

We have more than a million acres of cleared pasture land in North Carolina, the agronomist continued, but a great deal of it is not worthy of the name. Successful pastures must include legumes in the soil. Experimental results bear this out.

A pure stand of good Dallis grass sod has yielded only 1600 pounds of dry herbage per acre during the last two years in a test. A similar plot seeded to Dallis grass plus lespezoza produced an average yield of 2,900 pounds of forage during the same period. The addition of lespezoza increased the poundage of a carpet-grass pasture from 600 to 1,900 pounds, and Bermuda grass from 800 to 2000 pounds.

Lovvorn says that even more important than quantity is the quality of legume grass pastures. Grasses run very low in calcium during the summer and fall, and during these seasons the percentage has been doubled by the lespezoza, he reported.

The agronomist advises the use of lespezoza unless the soil is in a good state of fertility, in which case white clover will do good. Lespezoza can be grown anywhere in the State except on some of the sandhill soils.

Increased industrial production for national defense is expected to create a sound improvement in domestic demand for farm products, reports the U. S. Bureau of Agricultural Economics.

Auto Fatalities In N. C. Show Slight Decrease

While an encouraging reduction in traffic fatalities was reported in North Carolina the first six months of this year, compared with the same period of last year, this reduction did not affect the traffic toll among school-age children, stated Ronald Hocutt, Director of the Highway Safety Division.

That 56 traffic fatalities occurred in the state the first half of this year, compared with 57 for the same six months of last year. All types of fatal accidents combined took 353 lives in the state the first six months of this year, against 396 for the same six months of 1939.

Thus, while total fatalities decreased approximately 12 percent, child fatalities decreased less than 2 percent.

A significant feature of the summary was the revelation that 37 of the 56 persons under 15 who were killed the first six months of this year were pedestrians. This was 66 percent of the total whereas only 25 percent of the total traffic fatalities for the period were pedestrians.

Some encouragement was gathered from the fact that only 37 child pedestrians were killed in the state the first half of this year, against 44 for the first six months of 1939, and only four bicyclists under the age of 15 were killed the first half of this year, against 8 in the same period last year.

Living North Carolina parents to impress their children with the importance of safe practices and the dangers of wrong practices in their walking, playing, skating and cycling, Safety Director Hocutt declared:

"It is better that children learn the lessons of safety through teaching, not through experience."

SOREHEAD

Had swell appetite last Monday. Sat down to eat. Cold picked-up supper. Sore. Wife said "Can't do big family washing and 'big hot meal too' Different this Monday. Sent family washing to Gastonia New Way Laundry. Big hot supper. Big kiss.

Here's what's happened to Gulf Gasolines

shown in four simple pictures

There is a scientific test, employed by us and by many of our competitors, that is used to determine the anti-knock value of a motor fuel. According to that test, the figure above represents the old GOOD GULF—famous as one of the finest gasolines in America!

But look at the NEW GOOD GULF! This is a fair comparative measurement of the tremendous improvement in this great gasoline. GOOD GULF has been so greatly improved that it now surpasses North Carolina specifications for premium fuel ... yet it costs you not one penny more!

An equally sensational improvement has been made in GULF NO-NOX. This figure shows the rating of the old NO-NOX, then one of the super-fuels of its day and KNOCK PROOF under all normal driving conditions.

* Now look at the NEW NO-NOX! Tremendously better than even the old NO-NOX, it by far exceeds North Carolina specifications for premium fuels. Why not try a tankful of this super gasoline today?

Better try these Better Fuels!

BOTH GOOD GULF AND GULF NO-NOX EXCEED NORTH CAROLINA SPECIFICATIONS FOR PREMIUM FUELS!

FREE—"21 Ways to Save Money" This helpful booklet yours for the asking at your local Good Gulf dealer's. Get yours, right away at the Sign of the Gulf Orange Disc.
