**HELP STOMACH DIGEST FOOD**  
 Without Laxatives—and You'll Eat Everything from Soup to Nuts  
 The stomach should digest two pounds of food daily. When you eat heavy, greasy, coarse or rich foods or when you are nervous, hurried or else poorly-rested, your stomach often pours out too much acid. Your food doesn't digest and you have gas, heartburn, nausea, pain or sour stomach. You feel sour, sick and upset all over. Doctors say never take a laxative for stomach pain. It is dangerous and foolish. It takes these little black tablets called Bell-sun for indigestion to make the excess stomach acid harmless, relieve distress in no time and put you back on your feet. Bell-sun is so quick it is amazing and one 25c package proves it. Ask for Bell-sun for indigestion.

**Small Fire Monday**  
 Firemen were called Monday about 3 p. m. to a grass fire near Grace Methodist Church, which was quickly extinguished. On their way to the fire they noticed considerable smoke coming from the Cora Mill, and one truck went there, and assisted in putting out a blazing dust flue. Very little damage was done.

The effect on poultry meat supplies of the smaller hatch of chicks in 1940 than in 1939 is becoming increasingly apparent, reports the U. S. Bureau of Agricultural Economics.

**WHY DO THEY CALL IT A HONEYMOON?**

**BECAUSE** in old-time Germany, newly married couples always drank during the first month or "moon" after marriage, a wine which was made from honey and during this month they would keep apart from other people, making it a time of adjustments. Soon the idea of a voyage away from all things familiar took the public fancy and that voyage acquired the name "honeymoon" which it carries to this day long after the custom which originated it is forgotten.
