What's the Answer?

By EDWARD FINCH
WHERE DID THE EXPRESSION "KICK THE BUCKEY COME FROM?"

THIS expression originated when a man named Bolsover literally kicked a bucket out from under him in order to commit suicide. He climbed onto a bucket, slipped his head into a noose on one end of a length of rope, tied the other end to a rafter above his head and kicked the bucket away thus straggling himself to death. Someone took up the expression and popularized it into present-day slang.
