HELP STOMACH DIGEST FOOD

Without Laxatives—and You'll Eat Everything from Soup to Nuts

The stomach should digest two pounds of food daily. When you eat heavy, greasy, coarse or rich foods or when you are nervous, hurried or overworked your stomach often fails to do its work. Your food doesn't digest and you have gas, heartburn, nausea, pain of your stomach. You feel sour, sick and upset all over. Doctors say never take a laxative for stomach pain. It is dangerous and foolish. It takes those little black tablets called Bell's for Indigestion to make the excess stomach fluids harmless, relieve distress in 10 to 15 minutes and put you back on your feet. Relief is so quick it is amazing and one package proves it. Ask for Bell's for Indigestion.
