Serving 71 Military Camps in Dixie

Seventy-one military camps and establishments, where more than 570,000 men will be in training, are located in the nine states served by the Southern Bell.

In sixty-five of them, this Company is providing and maintaining the telephone facilities. Necessary switchboards and other equipment and more than 66,000 miles of telephone wire in cables have already been installed. Additional equipment will be pro-

vided as required. Nearly \$40,000,000 will be spent this year by Southern Bell for new construction and general expansion to meet the South's increasing telephone needs. New central offices, buildings and local and long distance lines are being put into service, and the net gain in new telephones is expected

to reach 115,000 this year. Aware of the telephone's vital part in national defense, thousands of telephone men and women are devoting their efforts to supplying the increasing communication needs of government and industry.

Washington Snapshots

(Confid from front pase) ily far quicker to convert a manuacturing plant already operating in hatsburgh rather than build an entrely new one in Idaho.

Indeed, building a new plant in ome non-industrial area would be uly the beginning of the problem o its wake, would come the necessi of bringing raw materials to loulities to which they had never been directed before; of drawing

-killed and semi-skilled labor from heir home localites and home com munities; and of making other chan tes and adaptations in dozens new directions

Those who are assailing businessnen-in-defense, however, seem to are less about whether their spec ous arguments' would or would not oard defense, and much, much nore about whether they constitute cod political capital. -- ()--

licidentally, to show how such bods rim it is interesting to note tells tollicism of the business in the defense set-up who are ing to ret things accomplished enitly contractices the criticisms that their enemies were trying to pin on them a short while back. Not many months ago the effort was being made to condemn the businessmen by getting out rumors to 'the effect that they weren't turning out equipment for defense as fast as they should.

This fell flat because it quarreled with common sense. Not only train ed experts, but plenty of ordinary Americans, knew that the change over from making peacetime articles to making defense products took a little course-charting at first to a void delays later. Getting orders out to industrial districts where the changeover could be made mos swiftly was one of the big, impoiant moves the businessmen madthat is beginning to show real results now.

But the "we don't like it" boys nothing daunted, changed directlo: like a weathervane hit by a high wind; and began criticizing the bus inessmen for doing the very kind of thing they had previously been as sailing them for not doing before.

The second point of attack has been directly against the businessmen themselves. There are many core businessmen who are working in the defense effort for \$1 a year. The professional critics hope make much of the fact that some defense contracts have gone to firms with which these men were connected.

What the theorists overlook that in choosing personnel for the successfu Commission. Defense "producers' got first call. If they were successful, their firms were too. If their firms were successful. then often they were capable of turning out defense goods satisfactorily and in a hurry.

So, whether the industrialist and businessmen were in Washington or not, their firms still would have won contracts. And if contracts had been denied to those firms just be cause they had representatives in Washington working for the good of the country, the defense program today would be in a terrific log jam.

Mr. Miles Boyd is back home afta six-weeks stay in Palm Hashey

Mr. and Mrs. Jasper Brown's inant son, Jasper Junior, died in the shelby Hospital on Wednesday, Mar h 5. and was buried Thursday, Mar ch 6.

On Thursday afternoon March 6. he Davidson High School basketcall teams journeyed to Blacksburg, 5. C., to play the Academy Street ligh School teams, Fighting a "nip and tuck" battle all the way, the Davidson girls came out on the winting end of a score 20:18. The cores at the end of the boys game vere 22-21 in favor of the Davidson

High scorers for Blacksburg were Lathem with 14 points for the girls, and Hanes with 12 points for the boys. For the Davidson teams, Nina Wilson chalked up 17 points for the girls and "Big Boy" Rainey 13 points for the boys.

The Davidson High School boys in essence to a feeling in the minds of certain planners which might be defined somewhat as follows: "We don't trust you, because de dont see why you'd give up good jobs to to work for your country. There nust be something more to it than meets the eye."

Maybe the ingredient that the tnart boys in Washington can't. quite understand is called "patriotism." If that's the case, their frame of mind is far more a reflection on hemselves than on the men w ho ire making the defense program work and, in the course of doing so, have aroused the incredulity of a ew noisy critics.
