**HELP STOMACH DIGEST FOOD**

Without Laxatives—and You'll Eat Everything from Soup to Nuts  
The stomach should digest two pounds of food daily. When you eat heavy, greasy, coarse or rich foods or when you are nervous, hurried or overworked—your stomach often pours out too much acid. Your food doesn't digest and you have gas, heartburn, nausea, pain or sour stomach. You feel sour, sick and upset all over. Doctors say there is a remedy for stomach pain. It is dangerous and foolish. It takes those little black tablets called "Laxatives" for indigestion to make the excess stomach fluids harmless. Laxatives do no good and put you back on your feet. Relief is so quick it is amazing and the package proves it. Ask for "Laxatives" for indigestion.
