SOCIAL SECURITY INFORMATION

Do you know why you will need to prove your age in order to get Federal old-age benefits? The law provides for monthly payments AFTER AGE 65 for insured workers who meet the requirements. There are supplementary benefits for the wife if she is also 65. Be sure you can show proof of age for both, and proof of marriage, when you are ready to claim benefits. Consult your Social Security Board office. It is located at 143 South Street, Gastonia, N. C.

A representative of the Gastonia field office of the Social Security Board will be in Kings Mountain at the City Hall on the first Tuesday of each month.

The cost of containers, boxes, labels and other packaging materials constitutes about 22 percent of the factory value of packs of U. S. canned and preserved fruit and vegetable industries.

Motorists Urged To Stay On Right Side of Road

Do you remember that popular song of a few years back titled "Stay on the Right Side, State"? If you do, the Highway Safety Division says, you are different from many North Carolina pedestrians and motorists.

Motorists driving on the wrong side of the road and pedestrians walking on the wrong side of the road accounted for 93 of the 349 fatalities in this State the first four months of this year, according to records of the Safety Division.

During the four-months period from Jan. thru April, 19 pedestrians were killed while walking on the right side of the road, with traffic.

"As much as has been written and said about the dangers of walking with traffic, it seems that every North Carolinian should know by now that the State law directs that pedestrians shall walk on the left hand side of the highway, facing traffic, said Ronald Hoccutt, director of the Highway Safety Division.

"It also seems," he said, "that every driver should know the simplest and most elementary of all our driving rules, which is that you must drive on the right hand side of the road. Yet 74 persons were killed in this state the first four months of this year because of wrong-side driving."

To all North Carolina motorists Hoccutt suggests "Drive on the right, don't straddle the center line, and share the road with the other fellow."

To pedestrians, he says: "For your own protection, walk on the left side of the highway, so that you will be facing traffic and thus will be able to see danger in time to avoid it."
