The value of telephone service increases as more telephone subscribers are added. During the past two years alone, a net gain of almost 200,000 telephones was made in the area served by Southern Bell. To make possible this unprecedented increase in telephones has required an expenditure of nearly one hundred million dollars and a net increase of more than 6,000 new employes, making a total of 38,000 men and women now employed by Southern Bell. Today, as never before in history, the telephone is indispensable to business and industry, a source of ever present comfort, convenience and security to the home, and vital to our national welfare in war and peace. The telephone has become a part of our modern way of life—indispensable—invaluable.

Lawrence Patrick took quite a fancy to Betty's roommate, Ann, Betty who did we see you with Saturday night.

Have you seen Christine's birth-
