A LAND OF PLENTY

The vast production machine that has been set up in this country will mean far more than victory over the Axis. It will mean a new and better world after this war is over.

For the first time in the history of the human race there can be enough of everything to go around. Poverty is not inevitable any more.

The sum total of the world's greatest possible output of goods, divided by the sum total of the world's inhabitants, no longer means a little less than enough for everybody. It means more than enough.

Whitewashing and trying to write this Mrs. Ross, mother of Private William M. R. Ross 431 St. Sig. Maint. Co., Avon Park, Florida, came in to say: "Send my love to the Herald. He is home sick for news from home."

The industrial miracles that we have recently seen performed in this country show us that the pioneer spirit of America is still alive, and manufacturers promise us that after the war is over the huge production facilities and new techniques that have been developed will be turned over to civilian needs so that this may truly be a land of plenty.

Here and There

By Mrs. A. M. Patterson Pitch Hitting For Mr. Lynch

Mr. Lynch's column last week was as follows: "When it's too hot for anyone to have to write a column, so I'm going to take a vacation for the duration."

Said vacation began this week with a nice REST in Shelby Hospital, where he lost his appendix Tuesday.

Castling around for something of interest I've decided we could do no better than catch something of the activities of Kings Mountain folks, scattered round about. Wish you could have seen the nice story carried on the sports page of the Winnipeg, Manitoba, newspaper.

Morace Walker known better as Red, faithful member of the Herald force for years prior to his induction in the Army, is now at Long Beach, Calif. Red has been made mail orderly and is also in charge of the nice rest room provided for the soldiers.

Talking about being home sick - Whitewashing and trying to write this Mrs. Ross, mother of Private William M. R. Ross 431 St. Sig. Maint. Co., Avon Park, Florida, came in to say: "Send my love to the Herald. He is home sick for news from home."

Raymond Hartsoe, one of Kings Mountain's finest, of her many fine boys was recently sent from Savannah, Ga., to McDill Field, Fla., and is also I believe a Herald reader.

Troy Lee Wright, at home on a vacation from his duties at Hamilton Hotel, Washington, D. C., has just stepped in to pay us a visit. Says he read the Herald too.

Sergeant Paul Walker, former employee of Myers' Department Store, is at Camp Chaffee, Ark., address 140th Arm. Sig Co., 6th Arm. Div. A. P. O. 254, Camp Chaffee, Ark.

Paul sends his mother programs

of the services he attends at First Methodist Church and on Mother's Day, he bought the biggest red rose he could find to honor his fine mother.

Billy White, young son of Mr. and Mrs. Ernest White, from far-away Honolulu, sent nice gifts home on Father's Day.

Dot Etheridge writes of many interesting places visited in California last a program of the Sunday morning service at Grapado Methodist Church, where she sings. The morning prayer included the confessions in the Church Hymnal. For a Blessing on Families for the President, The Lord's Prayer Sung by Lieut. Terry Morris, former member of Duke Glee Club and concluded with prayer by the pastor.

SUPER SNOOPERS

Well - after a week I've decided to come back and let you in on a little of the news, although, those people we didn't see at the Lake must have a secret hiding place. We noticed "Happy" and Charles A. together Sunday night - (it's good to see you two back at it again).

Clara Mae's surprise party was okay - and the progressive dinner party was quite the new fad. It seems sad but true - Douglas and Frankie have at last broken up - and it looks as if they followed in Amos' footsteps - By the way what's this we hear about Peggy Baker and Amos?

Who was it Sara Herndon stepped out with Sunday night? - Paul Jr. Neider seems to be keeping the road hot down to Rachel Smith's house - and who is the young gentleman that Mrs. Evelyn spends these summer evenings with? We understand Betty Lee and Loid

Jim Mercer and Lib Plunk are still going good, and Salena, did Tommy get down to see you Sunday? Florence Ehen is still wild over A. G. and they seem to enjoy their evenings along with Rachel and Pig. Well we better catch up on some more gossip and remember - be snoopers!

One steel plant has devised a reflecting system that results in better light and better sight for employees. Reflectors, not unlike those used in the movie studios, are arranged to pick up the light rays from windows and lamps, and direct them on machines and other points where light is most needed.
