Stabilization Highlights

Highlights of recent significant
economic stabilization orders in-
clude: (a) President Roosevelt's or-
der that the 48 hour work week be
generally adopted. (b) Economic sta-
bilization director James F. Byrnes' pro-
gram stipulating that there will
be no increase in wages, except to
rectify gross inequities and substan-
tial wage rates. Mr. Byrnes also said
that changing the parity formula
would affect farmers adversely in

the long run—that farm and dairy
workers who had gone into indus-
try should be urged to return to agri-
culture and that recruitment
should be deprived of their deferred
draft status. All Americans were ur-
ged to obey price controls and ration-
ing regulations as part of their
contribution to winning the war.

High taxes, Mr. Byrnes said, are
absolutely necessary, but he believ-
es firmly in limiting profits to prevent
exorbitant costs to consumers
and government alike.

tablished by War Manpower Chair-

stay where they are or transfer to
still more essential jobs where

No Blank Rationing For

Small Retailers

Small retailers — with less than
\$2000 of total sales in December
1940 — have been urged not to open
a ration banking account. UPA says
small retailers have the option of
opening ration accounts, but will
help relieve the strain on local
banks if they refrain from doing so.

Minneapolis Cut Coming

Railroads may find it hard to get
a copy of their favorite newspaper
after April 1, when the second 20
percent cut in newspaper paper is
likely to become effective. WPPC's
printing and publishing division has
told the supply of newspaper, if
equitably distributed, will prevent
under-hauling upon any publication.
A newspaper's essential service
in wartime is important, and it is hoped will not be materially
hampered by this necessary reduction
in materials.

About three fourths of all parts
equipment now being manufactured
go to members of the armed ser-
vices and to those receiving pre-
induction military training.

Gates Rationed

Some kinds of shoes are not covered by the rationing order that went into effect Feb. 1. Unrationed are soft and hard soled slippers and bedroom slippers, infants' soft soled shoes, ballet slippers, ordinary water proof footwear, gaiters, work boots, clog, and toe rubbers and lumberman's overshoes.

Those rationed come pair per person between now and June 15, obtainable through stamp 11 of war ration book one; include all types of boots and shoes made in whole or in part of leather, and all rubber sole shoes.

Shoe stamps are transferable, and can be used by any member of the family. In emergencies local ration boards will issue shoe purchase certificates.

V-Mail For Sailors

Four V-Mail letters to a sailor will have a better chance of getting to him without delay now, for the Navy has expanded its V-Mail services. Four new V-Mail stations have been sent abroad. Small, portable machines that can be quickly set up in remote areas will now be able to speed up the delivery of V-Mail to sailors.

Recruit Farm Help

Labor to help with planting and processing in canning areas will be recruited in a campaign beginning immediately, says the U. S. Department of Agriculture. County agricultural agents, the U. S. Employment Service, the Office of Civilian Defense and local operators of canning plants will all cooperate. Urgency of the situation makes necessary the help of local clubs, businesses, churches and schools.
