

NORTH CAROLINA WEEKLY WAR BOUND UP

VICTORY GARDENS GET RECORD

Twenty million Victory Gardens—two million more than the goal set last spring—were grown this year. Claude R. Wickard, Secretary of Agriculture, said in a recent radio address. The Secretary said the Victory Gardens total about four million acres and will produce eight million tons of food. In speaking of the goal of 22 million gardens for next year, Wickard said, "Last year at this time we were concerned over the possibility that we would not have enough garden seed and fertilizer for all who wanted to grow gardens. Our best information is that we shall have an ample supply of both next year. We are expecting a better supply of garden tools and equipment for spraying and dusting. Victory Garden production should set another new record in 1945."

FARM LABOR PLACEMENTS

Through the government farm labor program 1,600,000 placements of workers were made on farms in the past four months. Among the workers placed were 700,000 local U. S. Crop Corps workers, comprising 250,000 men, 150,000 women, and 200,000 boys and girls. War Food Administration officials, in making this announcement, stressed the need for additional emergency volunteer workers in the next six months. Recruitment and placement of farm labor are handled by county agricultural extension agents in most areas. In others the activity is carried on by the U. S. Employment Service.

POINTS FOR HOME-CANNED FOODS

The point value of home-canned foods shall be the same as that of the corresponding commercial product, except that no home-canned food shall have a point value of more than eight points per quart or four points per pound. This was announced in a recent OPA amendment.

SYNTHETIC TIRE PRICES

Maximum prices for synthetic rubber tires and tubes have been established by OPA. In the main, they are the same as ceiling prices for corresponding tires and tubes made from natural rubber.

MORE GOODS FOR CIVILIANS

Civilians will soon get more cooking utensils, lamps, lanterns, bed springs, innerspring mattresses, and electric razors, razor blades, plates, silverware, brushes, nails, toothbrushes, toothpaste, barbers' combs, and other kitchen and house hold articles as a result of a recent WPD directive, which reserved a portion of the production of approximately 20 types of products for civilian use. The directive prohibits government agencies from buying goods set aside for civilians.

CONSUMER COAL PILES SMALLER

The amount of coal held in storage by consumers diminished 312,000 tons during July. Harold L. Ickes, solid fuels administrator, reported recently. "We have less coal in storage now than we had a month ago," the administrator said. "The limitations on production make it uncertain to what extent output can be increased. Consequently it would be wise to conserve coal by all possible means so that there will be enough of it to carry on all essential activities and to keep the public warm."

PUBLIC MAY GET GET COPPER WIRE

The public may purchase copper wire without restriction from retailers, electricians, radio repair men and others who sell it. Under a new War Production Board regulation any retailer or repair man may order up to \$100 worth of copper wire for delivery during any calendar quarter. Civilians must use this with care. WPD officials pointed out, as it will be needed to cover all essential repairs for general public use.
