Troop Movement Job Equals 11 World Trips For Every Person In Cleveland County

Toting all of Cleveland County's 48,455 people around the world in sleeping cars more than 11 times would be a tremendous undertaking but that is actually about the size of the troop movement job reported by the Pullman Company.

Since Pearl Harbor, Pullman has carried about 14,000,000 troops a distance of more than 15 billion passenger miles in its sleeping cars the company reports. These figures are said to cover mass military movements alone, and do not include the heavy travel of furloughed men and others.

Many of the boys from Cleveland County, like servicemen from all parts of the country, are getting their first Pullman rides, according to George A. Nelly, vice president of the company. Now most of them are making six or seven trips by Pullman, as the intense training program of the armed services necessitates that many moves or more prior to embarkation for points abroad, he said. In addition the Army and Navy believe in all the comfort possible for the members of the armed forces, he declared, and about two-third of all military movements by rail are by Pullman sleeper.

Pullman is now carrying more than 800,000 troops every month in mass movements, it is revealed by Mr. Kelly, who pointed out that in addition to this heavy and steadily increasing military passenger burden, civilian travel itself is also at a record-breaking level [illegible] that Pullman's passenger-mile volume for 1943 may exceed [illegible] 1942 all time high of 19 billion by 30 or more percent.

"The military and civilian passenger burden of Pullman and the rail roads today is so heavy," Kelly said, "that there is unfortunately little margin left for some of the conveniences travelers enjoyed in peacetime. Service today is wartime service, and by their understanding and tolerance of this fact travelers can help us greatly in the performance of our vital job."

A Fighting Mother

CAMP BUTNER.—Mother of a true fighting American family is Pvt. Geraldine G. Ellis, San Diego, Calif., Women's Army Corps member stationed at Camp Butner.

Pvt. Ellis is the mother of a 19 year old son, gunner's mate, 2nd class, Alfred P. Ellis, Jr., in the Navy and the wife of Alfred P. Ellis Sr., who, until recently, was an aviation machinist's mechanic, 3rd class, also in the Navy.

Joining the service in June, 1943, Private Ellis received her basic training at Fort Des Moines, Iowa. She then reported to Camp Butner where she works in the morning report section of the military personnel office at Post Headquarters.

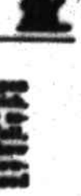
Private Ellis' husband is assigned to a corvette. At different times he has been in Iceland, the Canal Zone, Trinidad, Dakar, and the Isle of Man. He has seen action in the Pacific area and has had his ship sunk under him. Gunner's mate Ellis wears five stars on his service ribbons to signify that he has taken part in five major battles.

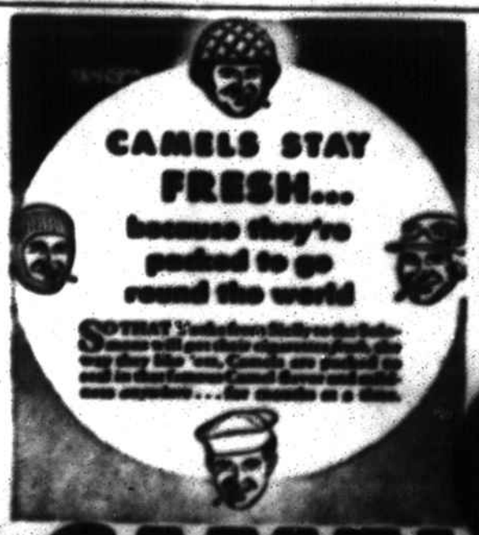
Aviation Machinist's Mechanic, 3rd class Ellis, who was assigned to the Aircraft Carrier Enterprise, saw action near the Solomons Islands and Guadalcanal and was present when the Enterprise's sister ship, the Hornet, was sunk by the Japs. He wears four stars on his service ribbons for the four major battles in which he has fought.

When asked how her son and husband reacted to her enlistment in the WAC, Pvt. Ellis replied "They were never so proud in all their lives as they were when I entered the Corps — especially my son. The only thing they did say, continued the WAC, "was that it was too bad I didn't get into a real outfit like the Navy. But they were just fooling when they said that. You know all about the traditional rivalry between the Army and Navy."

"I chose the WAC," said Private Ellis, "because the Army appealed to me more, and I also hope to go overseas eventually. With all those overseas ribbons in the family already, I feel I should acquire one myself. Alfred is already kidding his dad about being 'enemy' on him."

Give him a Crisp WAR BOND for a CHRISTMAS present to be remembered. Keep on BACKING THE ATTACK.





WITH THE BOYS IN SERVICE

Dear Mr. Lynch:

Out here in India we try to get to the bottom of things and the more we try, the more I realize that we should just trust in our Lord. He has reasons for all this and I'm convinced that if we trust Him and try to get closer to Him, we'll at least have peace in our hearts even though there is not outward peace.

We must not lose faith because we know as Job knew, That my Redeemer liveth, and our future is entirely in His hands. Death holds no terror for a Christian and so being out here in India isn't worrying me in the least. Our future is a little hazy but through all these war clouds the Son of Peace will come.

Pvt. Ben B. Short.

OPEN FORUM

Phoenix, Ariz. Oct 17, 1943.

Dear Mr. Lynch:

I am missing the Herald something awful. I have only received one copy since I have been out out here. That was almost two months ago. You had my address wrong. I was on an avenue and you had it street. Well, anyway, I am living in Phoenix now and hope to be here for a long time, so you can send the paper to this address: R-4, Box 602, Phoenix, Ariz. Lots of my friends there might want to know where I am at, what I am doing and why, so I will try to give you some dope on myself and you can print it in your paper if you care to. As you know, I came here to this state for my health. This dry climate is supposed to do wonders for almost every ailment, including asthma. I can say it has helped me lots. I came to Tucson, took the tir and sun cure three months, then went to work in a large bomber plant here. I had and still have a job there looking after all theh plumbing at the plant, which is a very large one. The planes are the B-24 you see and read about. Four-engined heavy bombers, they have a wing spread of 110 feet and carry enough gasoline to fly from this point to the various fighting fronts. The Army takes them over when they are completed, then they are on the wing after Hitler or the Japs.

The number that leaves out each week is a military secret. But there is plenty of them. You can tell the places they are going to by the way they paint equip them. A big lot of them go to the South Pacific. Sometimes I would like to board one and go Jap hunting, then I look at the fine young men they put on them, their faces eager for action. Each one trained just right for his particular job, then I know I would not fit in there, so I content myself with the things that go to make the big Bombers possible.

I got sick on the job there, was taken to the hospital, had kidney colic. The doctors there didn't seem to understand it, so they sent me here to a kidney specialist. I am almost well. Think I will work in one of the many defense plants here, as they are all fixed up for the same course. People here are very much in this war. Everyone is doing all he can for the War Effort. Of course, we have some slackers young men hid away in the plants to keep out of the Army. Guess that happens anywhere.

Tell all the old friends hello for me and please send my paper on as I get lonesome to hear from the Old Home Town. How is the old plumbing shop goin. OK I hope. Has Bennett took any more pipeline work. Tell him to keep his nose clean. That's all. Yours truly,

L. O. Welch.
R 4 Box 602
Phoenix, Arizona.

NOTICE OF SALE

Under and by virtue of an Order of the Superior Court of Cleveland County, made in that Special Proceeding entitled: "Dr. L. P. Baker and H. T. Fulton, Executors of the Estate of D M Baker, Deceased, Plaintiffs, vs. Mrs. Sallie Fulton, Widow; R. C. Baker, L. P. Baker and wife, Mary Tipton Baker, F. A.
