

Pin-up picture for the man who "can't afford" to buy an extra war bond...

YOU'VE HEARD people say: "I can't afford to buy an extra War Bond." Perhaps you've said it yourself ... without realizing what a ridiculous thing it is to say to men who are dying.

Yet it is ridiculous, when you think about it. Because today, with national income at an all-time record high ... with people making more money than ever before ... with less and less of things to spend money for ... practically every one of us has extra dollars in his pocket.

The very least that you can do is to

buy an extra \$100 War Bond ... above and beyond the Bonds you are now buying or had planned to buy. In fact, if you take stock of your resources and check your expenditures, you will probably find that you can buy an extra \$200 ... or \$300 ... or even \$500 worth of War Bonds.

Sounds like more than you "can afford"? Well, young soldiers can't afford to die, either ... yet they do it when called upon. So is it too much to ask of us that we invest more of our money in War Bonds ... the best investment in the world today? Is that too much to ask?
