The WARTIME

led by GOVERNMENT OF THE UNITED STATES

COMBINED FOOD
COUPONS

Thanks to the food supplies the United Kingdom has received from the United States and Canada, the diet available to her people is now fairly adequate, although Americans and Canadians fare somewhat better, according to the report issued Monday of this week by the Combined Food Board of these three countries. While the pre-war diets of the three countries were similar, the United Kingdom has been compelled during wartime to turn more to grains and vegetables for her protein and fats, while the United States and Canada

have fared better than the United Kingdom in animal fats and fruits. The Combined Food Board, set up in 1942 to achieve maximum utilization of the food resources of the United States, Canada and the United Kingdom, includes a member from each of these three countries. The report just issued is the most complete comparison yet made of civilian food supplies in these countries.

MOTORISTS KEEP TIRE RECORDS

Tire inspection records must still be presented to ration boards whenever application is made for gasoline or tire rations, the office of Price Administration said in explaining the need for saving the tire record form. The tire record must be kept with the automobile and transferred with the car if sold. Operators of trucks, buses, taxicabs and other types of commercial motor vehicles are still required to have their tires inspected periodically, although passenger car tire inspections are no longer required.

TIRES FOR SMALL TRUCKS

Small trucks delivering essential foods, laundry, drugs and medicinal supplies and dry-cleaning apparel, trucks operated by medical or dental practitioners will be able to obtain new truck tires of eight or less ply and all sizes of new passenger tires, OPA announced. Delivery trucks for beverages, ice cream, retail stores, confectionery and tobacco products, heretofore ineligible for any tires, will now be able to get used passenger tires, used truck tires smaller than 7.50-20 and obsolete sizes of new passenger tires.

COUNTERFEIT STOLEN GAS COUPONS

More than 90 percent of American motorists have endorsed their gasoline coupons, OPA said in reporting the

progress made in cleaning out counterfeit and stolen gas coupons. Since January first, 925 counterfeit, paid dues and passes who had robbed local boards were arrested, and 611 motorists who bought gasoline illegally lost their licenses. Also 20,001 filling stations had to turn in valid coupons to make good the illegal sale of more than four million gallons of gas and 1349 other stations were denied the right to buy or sell gasoline for periods varying up to the duration of the war.

TO TRAIN MEN FOR SEA DUTY

Men 20 years of age and over are needed especially during the next 10 weeks to be trained for service on board merchant vessels, the war shipping administration announced. Physically fit, honorably discharged veterans and men classified 4-F or 1-C, 17 1/2 years of age and over, will be accepted for training. Men with previous sea experience may apply for refresher courses, upgrade training or other candidate courses. Applicants may register at Maritime Service enrolling offices in major cities or insure directly at the U. S. Maritime Service, War Shipping Administration, Washington, 25, D. C.

ROUND-UP

WFB says: Many electrical and mechanical repair shops are not taking advantage of a WFB regulation to aid them in obtaining parts and materials for domestic appliances such as refrigerators, washing machines, radios, clocks, sewing machines, stoves, bicycles, lawn mowers and plumbing. At present, there is no visible possibility of resumption of passenger car production until after the victory over either Germany or Japan. Because of the limited supply of household "fly" spray guns, housewives should take extraordinary care of the ones they now have.

There Is Only ONE ISSUE In This Campaign---Just ONE!

And that issue is the type, character and qualifications of the man Cleveland county wants in the

N. C. State Senate

The voters know the two candidates. Both of us were born and reared in Cleveland County, have spent our lives here in daily contact with the people who know both our public and private lives.

Making laws that govern the destiny and regulate the lives of people is a serious and important business—especially during these critical times. To serve in the General Assembly is a financial and personal sacrifice for anyone who has a job to do at home. Because of my love for the people of Cleveland and its high standing in State affairs, I am willing to make this sacrifice, again—if the people so desire.

CHOICE OF ONLY TWO

There are only two of us to choose between. I am willing to leave this choice to the good people who have the welfare and reputation of the State and County at heart. I have not and will not disgrace or discredit my County or my people. There are only fifty Senators in the N. C. General Assembly, so the position is not only an honor but a grave responsibility.

Every voter knows the ability, the qualifications, the records and the tactics of each candidate for the State Senate here and it is on these standards you are to make your choice.

MY SENATORIAL RECORD

I have served one term in the State Senate and on this record I seek re-election:

- (1) A 30-day extension for the purchase of auto tags.
- (2) Voted for increase in pay and bonus for teachers and all other state employees.
- (3) Allow retailers 3 percent discount for collecting and remitting sales tax.
- (4) Permit farmers to haul their produce and heavy farm equipment on trailers without extra licenses.

AND ABOUT TAXES

I do NOT promise to cut the State's revenue and at the same time increase appropriations. I am no miracle man and would not for the world promise something I can't do. When the war is over, I favor a complete inventory and adjustment of ALL taxes—State taxes and Federal Taxes, Sales taxes and Income taxes. We can then tell where we stand.

I would like to see the Sales tax reduced and finally removed, but TAXES ARE BARELY REMOVED—THEY ARE MERELY SHIFTED

I would not want to see a tax put back on real estate, homes, farms and property for State purposes. I would not favor repeal of Sales tax if its repeal means reducing the school term—if its repeal means reducing teachers' pay, or cutting out free school books and school lunches. I would not favor repeal if it means crippling the institutions that care for our aged and unfortunate people.

MY INTEREST IN EDUCATION

For eighteen months I served on the State School Commission which administered the expenditure of THIRTY-TWO MILLION dollars for mass education. During my service on this board and in the Senate, I voted to raise expenditures for education from Thirty-Two to THIRTY-SEVEN MILLIONS annually.

PRECIOUS POSSESSIONS

Cleveland County has a population of 58,000 and the property valuation for tax purposes is THIRTY-SIX MILLION dollars. THESE PEOPLE AND THIS PROPERTY REPRESENT THE MOST PRECIOUS THINGS WE'VE GOT IN CLEVELAND COUNTY. THESE INTERESTS MUST BE SAFEGUARDED. AND ON THE QUESTION OF WHETHER I or my opponent is best qualified, politically or personally, to serve this great county in this world crisis, I will let my record and his record speak for themselves.

How a Pulpwood Shortage Handicaps the Farmer...

FRUIT AND VEGETABLES WOULD ROT IN THE FIELDS

MILLIONS OF EGGS WOULD NEVER REACH THE MARKET

FEED STOCK AND FERTILIZER WOULD SELL IN BULK ONLY

...WITHOUT PULPWOOD TO MAKE CONTAINERS

Pulpwood helps the farmer both in the marketing and the planting of his field crops. Feed, fertilizer, seeds and other farm essentials come to the farmer in containers made of pulpwood. Fruits, vegetables, dairy products and other farm produce are packed in pulpwood wraps, boxes, and paperboard boxes before they reach the consumer. And most important, pulpwood containers help the farmer feed our armed forces overseas.
