Opposite Old Mill

A new requirement for cotton marketing under the terms of the Smith-Dooley Act is that the ginners who submit samples must be bonded and the samples taken must be cut from the bale.

Dan F. Holler, extension cotton marketing specialist at State college says that the free classification of cotton by the Government office at Raleigh, giving the farmer the grade and staple of his cotton and also the loan value on the cotton, has been of great service in helping the grower market his cotton.

He suggests that growers consult their county agents in areas where they have not been getting this free classification service and arrange to make application for it.

### Letter To Editor

Somewhere with the 3rd U. S. Army  
April 28, 1945.

Dear Editor:

Just received my copy of the March 8th Herald and it does me good to read that the old bank building is being remodeled. I think Kings Mountain is the best little town in the world, but there are a few improvements we could use that we don't have right now. Such as a new and big hotel. It would really be nice to read in the Herald that K. M. is

people there will agree with me. I've been away from K. M. (except for short passes) ever since way before the new overhead bridge was built, but I still talk about the place with as much pride and interest as if I lived there now. I'm hoping that I can return to Kings Mountain soon. So is a lot of other boys. I read your column "with the Boys in Service" with great interest. Some of the fellows I know and some I don't. I'll get to know them all if I ever get back there. In the meantime I'd like to keep the Herald coming my way so I can keep up with things. I'll sign off now so keep the ball rolling. Best of luck. Respectfully,  
Sgt. Millard E. Smith.

New fats and oil quotas for household bar and package soaps and industrial soaps have been reduced. This means to save more salvage fat in the kitchen.

*Safe and Sure*  
**YOUR WAR BOND**  
*Dollars*

## Types of Issues Issued to Public

A grateful Nation has girded itself for the Mighty Seventh War Loan for 14 billions of dollars, half of which has been assigned as the individual sales quota. According to reports from state chairmen reaching Ted K. Gamble, national director of the War Finance Division of the Treasury in Washington, the Nation is ready for the huge task. Mr. Gamble was enthusiastic about results. He said "We're prepared to do the best job in the 7th War Loan." Mr. Gamble said that "not only is there more money available than ever before in each state, but individual income will be higher in the period of the 7th War Loan than in any previous War Loan period."

MORGENTHAU

Secretary of the Treasury Henry Morgenthau said seven billions of dollars has been assigned as the quota for individual investors and that the major emphasis throughout the drive will be placed on the quota for individuals. The individual quota is the highest established in any of the

The E Bond quota alone is 4 billion. The 7th War Loan seeks nearly as much in the one drive as was asked in the first two drives of last year which were held up to this time. The two drives of this year, therefore, will seek nearly as much as was sought in the three drives of 1944.

The Secretary stated that there is every evidence that Federal expenditures are going to remain at a high level for some time to come, and that the Seventh War Loan program was designed to obtain maximum funds necessary to prosecute the War from non-bank investors.

The securities, which will be sold under the direction of the State War Finance Committee, are as follows: Series E, F and G Savings Bonds, Series C Savings Notes, 2 1/2% Bonds, 2 1/4% Bonds, 1 1/2% Bonds, 1/2% Certificates of Indebtedness. The 1 1/2% Bonds will not be offered in the Drive to corporations.

The Drive for individuals will extend from May 14 to June 30. However, an intensification of activities in the sale of Series E bonds began April 9, when millions of persons on payroll savings plans throughout the country were asked to enlarge their participation as a part of the Seventh War Loan. All Series E, F and G Savings Bonds and Series C Savings Notes processed through the Federal Reserve Banks between April 9 and July 7 will be credited to the Drive.

During the final phase of the Drive which will cover the period from June 18 through June 30, subscriptions will be received from all other non-bank investors for the 2 1/4% and 2 1/2% marketable bonds and the certificates of indebtedness.

### True or False

Test your knowledge of your Government's War Bond Financing program. The answers to these questions, given at the end, should be known by every American. How good are you?

- 85 million Americans have purchased Series E War Bonds.
- 84% of all the money ever invested in E Bonds is still invested in them.
- If a Bond is lost, stolen or destroyed, it is just the same as if the owner had lost the money he invested.
- E Bonds may be cashed at any qualified bank for their full cost any time after 90 days from date of issue.
- The U. S. Government's promise to redeem War Bonds any time after 60 days from date of issue is just as strong as its promise to stand back of a dollar bill.
- You have to hold a Bond the full ten years to get any interest.
- The lowest-priced War Bond costs \$25.
- War Bonds are better than cash.
- Two persons cannot own a War Bond jointly.
- The only reason we should buy War Bonds is to help pay for food, ammunition, etc., for the armed forces.

### ANSWERS

- True.
- True.
- False. War Bonds are registered in the names of their owners, and lost Bonds can be replaced.
- True.
- True. Compare wording on a Bond and a bill.
- False. Your Bond increases in value after one year. See the values on the back of the Bond. But you get a greater increase in value the longer you hold a Bond, up to \$1 at the end of 10 years for every \$5 you pay.
- False. A \$25 Bond costs \$18.75.
- True. They can be replaced if lost; they increase in value and they can be converted into cash in case of need.
- False. War Bonds can be owned by two people as co-owners or as owner and beneficiary.
- False. Your savings invested in War Bonds will also help to stabilize prices now and to provide for your own security in the future.

Care should be taken to keep any kind of lubricant from getting on automobile tires, because oil and grease deteriorate anything made of natural rubber. If oil or grease gets on a tire, it should be removed with soap and water.

Lubricant in an automobile is really a structural part of the mechanism. To use the wrong oil is just as bad—or at least almost as bad—as putting in a repair part that doesn't fit. —General Motors User's Guide.

Ceiling prices for the 1945 crop of sweet potatoes have been increased 17 cents a bushel over the 1944 schedule as an incentive for increased production this year.

## A Saving Time

American people are saving more money now than they have in many a year, and many are investing it in property which can be destroyed by fire. An investment which can burn needs fire insurance protection.

## Attack Is The Keynote Now . . .

While the major portion of our 2-ply yarn is now going into field and assault wire—the required products for the fight against the enemy—Cora yarn has also been used for a large number of products used by the armed forces, including bomber lining, army socks, shoe lacing, raincoats, mosquito netting, cartridge belts, and uniforms.

Not only are the 266 employees at this plant sticking to their jobs and rolling out the yarn, but they can boast of a 93.61 per-cent record of bond-buying.

In Kings Mountain War Production Week, we praise the loyalty of these men and women and their continued support of the war effort in these two most important ways.
