The induction group included: William Prexis Carthen, David Jackson Taylor, Luico Bryant, Alfonso Dawson, Joe Thomas Jimson, Edgar Lee Adams, Early Junior Miller, Garland Valentine, Robert John Andy Brown, Luther Jamerson.

The group receiving examinations included: Johnnie Robert Guinn, James Junior Eaves, James Epps, James William Edward Adams, William Stokes Howard Thomas Spencer, Eugene Patterson, Robert Lee Lewis.

**Jesse Kiser Promoted By Standard Oil Firm**

Jesse A. Kiser, native of Kings Mountain but for a number of years resident of Charlotte, has been promoted to the position of field supervisor for Cleveland, Gaston, and Lincoln counties by Standard Oil company, with whom he has recently been affiliated in the sales department, covering North Carolina.

Mr. Kiser succeeds W. N. (Red) Tyler, who has been transferred to the Durham district.

Mr. Kiser plans to move his residence to Gastonia in the near future.

**Farm Slaughterers**  
Farm slaughterers in the Kings Mountain area were reminded this week by the OPA District Office of the July 1 deadline for registration. All farmers who slaughter, or have slaughtered for them, as much as 400 pounds a year, but less than 6,000 pounds, must apply for a slaughtering permit by July 1, or they will be prohibited from such slaughter for the balance of the year, said the OPA release.

Permits may be obtained from the local War Price and Rationing Board Chairman W. E. Blakely said today. The permit entitles the farmer to do the same amount of slaughtering as in the corresponding period last year. Mr. Blakely also stressed the fact that farmers who sell meat must collect ration points according to the official point-chart provided by the Board, and must agree to hold all prices within the legal ceilings.

**Tire Dealers Record**  
OPA District Director L. W. Driscoll yesterday urged tire dealers to maintain accurate records of all tire transactions, in preparation of the inventory they must make on June 30.

This inventory, accounting for all rationed tires and Parts B, must be filed by July 10. Dealers not filing by that date will not be allowed to deal in rationed tires until the filing has been made, Mr. Driscoll said.

These new records and inventories are the latest step in OPA's strengthened controls over the distribution of tires, Mr. Driscoll explained. "We are still critically short on tires, and we must make absolutely sure that every single tire reaches a legitimate, essential user," he added.

**Used Car Prices Down**  
Used car prices all over America will take a four per cent drop on July 1, the Office of Price Administration announced this week in Washington. The move affects cars sold either by regular dealers or private owners.

The price cut is in accordance with used car pricing regulations which provide for normal depreciation. OPA officials said, adding that four per cent would also be deducted from charges allowed for extra equipment, such as heaters and radios.

"This price drop should not only prove a stimulant to used car sales," said an OPA spokesman "but will also provide additional low-cost transportation to essential workers."

**Extra Gas**  
Additional gasoline will now be available for farmers' representatives who market fresh fruit and vegetables, and for certain wholesale buyers, OPA District Director L. W. Driscoll said this week.

Farm marketing agents, including cooperatives, will be allowed gasoline for travel to farms of the farmers they represent in order to direct harvesting, grading, packing, and shipping of fresh fruits and vegetables, if such services are necessary to marketing of the crops.

Adequate gasoline rations will also be given to wholesale buyers, who must travel to farms to grade, inspect and classify farm products as an essential step in buying them from farmers.

**Gas For Servicemen**  
Servicemen returning from overseas on temporary duty orders for rehabilitation, recuperation and recovery will be eligible for furlough gasoline rations, according to OPA's District Office in Charlotte.

The servicemen may obtain his rations by applying to the local War Price and Rationing Board, presenting both his temporary duty orders and the mileage rationing record for the car he will be using, the announcement said.

Previously, servicemen were required to present leave or furlough papers when applying for these gasoline rations, but those now being sent home for periods of about 30 days are not being issued such papers.

The amount of the ration remains the same, one gallon of gasoline for each day of the furlough, with a maximum of 30 gallons, OPA officials said.

**YES, YOU MUST REGISTER**

You may have been voting in regular city, county and state elections, but YOU MUST RE-REGISTER to vote in the SPECIAL HOSPITAL BOND ELECTION to be held Saturday, July 7th. The law says that all elections involving the levying of a tax or issuance of bonds, require a RE-REGISTRATION. So don't neglect to register this week. It's your last chance.

**THIS IS LAST WEEK**

See the registrar in your polling precinct any time this week and register. That is legal. If it is inconvenient to call on your registrar now, you can find him or her at your voting place Saturday, June 23, until 6 o'clock. That's your last opportunity, but the election is too important to put off registering until the last day. Do it NOW.

**SOME REASONS WHY**

I have been asked to serve as general chairman in promoting the election. I gladly accept the task because Cleveland County's greatest need now is larger and better hospital facilities in Shelby and Kings Mountain.

I believe in promoting health and adequate hospital and medical care for our people—all our people, poor and rich alike.

Here in Cleveland, we have active civic, religious, social and patriotic organizations, pledged to the upbuilding of our county.

We have 70 or more strong churches, a fine school system, excel in farming, rank at the top in industrial output, so we must have adequate hospital facilities for the sick and afflicted.

Christ, the Great Physician, not only healed men's souls, but relieved them of their bodily afflictions. He passed this power on to his disciples. We do not have healing powers, except as we provide hospital and medical care for our sick and afflicted.

**WHY WE MUST NOT FAIL**

The hospital is now crowded to such an extent that new-born babies have to be put in bureau drawers and bath tubs because there are no cribs for them. At times, patients have to be put in hallways where there is no privacy, because all other beds are filled. Do you want this to happen to you or yours?

In the past 20 years the local hospital has had 35,004 patients. This is a 300 per cent increase in the past ten years. 4,585 babies have been delivered in the hospital in 20 years, seven times as many as were born in the hospital just ten years ago.

The School of Nursing has graduated 129 nurses since 1920. These practice their profession in army camps, in hospitals, in homes and offices, relieving suffering humanity and prolonging life.

**SOME DAY YOU MAY NEED IT**

You may never have needed hospital care for yourself. Make no mistake about you, some day YOU likely will need hospital care. Without it, it may cost you your life or shorten your days.

It will cost a little, to be sure, but suppose it does? What is money compared with life, health and happiness?

It's economy to you to have a good hospital at home. Elsewhere they are filled and you can seldom gain admission.

Thousands of you industrial workers carry hospital insurance. Your policy is good only if there is a hospital bed available for all who need hospitalization.

Read future advertisements which will explain everything about the election, the hospital program for the county, the tax rate, the trustees which will come from each of the townships and the operation and maintenance of the proposed county hospital system.
