There were no attendants and the couple entered the church together. The bride wore a becoming black street length dress with blue combination, a large black hat and other accessories in black. Her shoulder corsage of mixed flowers were of shades of blue to blend with the trim of the dress.

Alexa Owens of Kings Mountain was his brother's best man, and ushers were Holland Dixon, brother of the bride, and Staff Sgt. Boyd Bell of Kings Mountain.

Immediately following the wedding the parents of the bride entertained at an informal reception and cake cutting at their home. Wedding cake and ice cream was served from the dining room table which held white gladioli, white tapers, and the three-tiered wedding cake.

NEW POINTS TO SPEND
Validation last Sunday of five more red stamps and five more blue stamps has added a total of 100 points to your food buying budget, since each new stamp retains the established 10-point value.

New Blue Stamps are J-1 through N-1; new Red Stamps are A-1 through E-1. All ten stamps may be used any time from now through the month of October, OPA's announcement said. There are always four sets of both red and blue stamps valid, said OPA, the lifetime of each set being four months. The first set is always retired as the fifth becomes good.

POINT CHANGES

Very few point changes are announced by OPA for the month of July, with processed foods, beef, lamb and veal all remaining stable, according to the District Office in Charlotte. Pork remains practically unchanged, the only changes being minor increases for certain fat cuts.

Margarine, because of its shorter supply, is upped two points, making it 14 points per pound; butter remains unchanged at 24 points per pound for creamery butter; 12 points for country or process butter.

The points for canned fish are higher in July because of reduced supply for civilians. Canned tuna and salmon are now 9 points per pound; oysters, 4 points.

Cheese take a decided drop, according to the new point chart, with 2 to 4 point decreases in all classes of rationed cheese. This reduction is chiefly because of the highly seasonal nature of the products, OPA announced.

Lard, shortening, and salad and cooking oils retain the 12-point value which went into effect June 17, OPA said.

Check all binders and combines for the grain harvesting season warns Prof. David S. Weaver, head of the Agricultural Engineering Department at State College.
