Mrs. George W. Hilliard and son, Kenneth, of Savannah, Ga., spent last week with Mr. and Mrs. Hilliard Black.

Flight Officer Archie Costner, stationed at Lincoln, Neb., is home on leave.

## More About Jake Early

(Cont'd. from front page)  
"Epicks of 1945 and chosen on the All-Star major league team—was nipped when he was caught in the draft came to the 57th as a replacement the day before the division launched its Koblenz attack. He spent his first day with the unit manning a machine-gun along the Moselle, then fought through until VE-Day.

"In addition to their combat chores, Johnson and Early pull KP and other company duties just like anybody else. Because they refuse to be glamorized, as are very popular freaks or public heroes, they are very popular with the men. "They never bitch about anything and they are just as regular as the guys who used to be shoe clerks or bakers or something else," seems to be the consensus among their buddies.

"Johnson and Early are not particularly disturbed about their own futures because they know they can make the grade again. But they are concerned about other young fellows in the service who have the talent to make good but are "losing the best years of their lives." In a small measure, Johnson and Early are helping these prospective major leaguers by spreading their baseball knowledge during the frequent "bull sessions."

"All of which proves some ball players aren't riding the gravy train, if proof of this ever has been necessary."

## Letter To Editor

To the People of Kings Mountain—  
"Just a few days ago I received a letter from home that literally swept me off my feet. To say I was deeply hurt is putting it mildly, but not only was I hurt but I got pretty hot under the collar too. I thought I would give myself a few days to cool off before I wrote this letter, so I could say just what I want to say and still keep down to earth.

"I am not writing this so much from a personal standpoint because this type of thing would be wrong regardless who was involved, but since it did happen within my own family, I think it is my duty to see to it that a recurrence of this incident will never take place.

"Being a kid myself I know just how much graduating from High School means to a boy or girl. They look forward to it from the very first day in school and as the time draws near the school career reaches a climax. You go through all the necessary preparations, attend the baccalaureate service with your class and anxiously await the climatic hour, the commencement itself. Suppose just a few short hours before you are to walk up on the stage and receive your diploma you were told you were not going to finish. Everything you have lived for and planned for is suddenly swept right out from under you. Just such an incident happened this past year.

"I can't see how a man in his right mind could do this to a boy. Surely if the boy did not have enough credits it would have come up before things had gone this far or it certainly seems so. Even with this an effort was made to let my brother go through the ceremony and get a blank diploma in order to save the humiliation of such a situation but

this was refused. I have never known anyone to be so deliberately planned, even though I think it was, but I will say that I think this is a mighty poor way of doing things. "It is too late to do anything about this past incident but it certainly is not too late to prevent it from happening again in the future. "We are not asking for sympathy, but for action. I know the people of Kings Mountain and I know they will not support this type of school set-up and if my writing this letter has helped to bring things out in the open then I have accomplished what I set out to do.

"Thanking you most sincerely for your time and interest, I remain,  
"Sincerely,  
"Cpl. Herron H. Edens,"  
APO, San Francisco, Calif.

When pasture grasses become tough in summer, "winter butter" is produced unless the cows are put on a good grazing crop like soybean or kudzu. Cotton will get keen competition from synthetic fibers after the war. Join the one-variety program to keep seed stocks pure and produce only uniform, high quality cotton.

## More About Watterson

(Cont'd. from front page)  
I'veed himself a man of the highest integrity and ability. T-5 Watterson's coolness under fire was a great comfort to all who were around him. T-5 Watterson's devotion to duty reflects great credit upon himself and upon the armed forces which he served so willingly and so well. "Charles H. Hickman, major, 755th tank battalion, commanding."
