The average farm in North Carolina today is a "one-man, one-mule" unit and the average family subsists on less than 20 acres of cropland.

More farm fruits are in prospect for civilians in 1946 than in 1945 and canned fruits will be much more plentiful.

On the index basis of 100 for 1926, the so-called "normal" year operating costs of American automobiles had declined to 50, or half, by 1939.

Gasoline stocks in the United States today stand at more than 3,650,000,000 gallons, an increase of 250,000,000 gallons over a year ago.
