Rudy M. Hernandez (left) and Eugene C. Hernandez are not relatives, but their war and post-war lives run a remarkable parallel. Both enlisted in Army from Texas, each lost a leg in ETO, both were hospitalized at Brigham City, Utah, both married Ogden girls while recuperating, both were discharged late last year, both work as forklift operators at Clearfield naval supply depot and both recently obtained identical new cars from the Veterans Administration-administered program.

**State College Hints To Farm Homemakers**

The holiday season may be sweet in many ways this year but not with very much candy. Home made candy is a great favorite moth for its taste and for the fun of making it. Sugar is scarce but it will be worth your while to do a little looking for honey, molasses and corn syrup because there are sugar saving sweets to be made with these.

Dried fruits and nuts can be dressed up to take the place of candy. Dates, figs, prunes stuffed with nut meats and lightly rolled in sugar are something special. The Bureau of Human Nutrition and Home Economics gives this recipe which is popular with adults and children:

**Fruit Balls.** Wash and dry 1 cup prunes and 1 1/2 cups raisins. (If prunes are extra dry, soften slightly in water.) Grind through meat chopper, using medium knife. Add 1/2 cup chopped nut meats if desired. Mix well with 1 tablespoon lemon juice and a few grains salt. Make into balls, 1 rounded tablespoon mixture to a ball, and roll in sugar. Store in a tin box or tight jar. If available, other dried fruits — figs, apricots, or dates — may be substituted for part or all of the prunes or raisins.

Amidst all the activities of the

to be prepared for those after-Christmas meals when unexpected guests stop by to bring greetings. Leftovers may be tucked away in a white sauce without anyone being the wiser that they are left overs. They may be kept simple or made more elaborate by adding such foods as chicken or almonds. A fresh spring of parsley or a bit of pimientos may be added as a garnish. Tempting casseroles, steaming soups, attractive salads, or unusual desserts satisfy the taste whims of all.

**Vets Administration Needs Nurses Badly**

An urgent call for nurses is being sounded in North Carolina by the Veterans Administration to meet an immediate need for qualified nurses, particularly Asheville.

Oteen, a 1,100 bed tubercular hospital, recently took over operation of the 1,000 bed former army hospital, Moore General, at nearby Swannanoa. The shortage of nurses is preventing full utilization of facilities.

"A Medical Service Send to None" is keynote of VA's vast medical program for the benefit of veterans who need and are eligible for treatment or hospitalization. Creation of a Department of Medicine and Surgery in the VA made possible greater professional opportunities for nurses and set salaries on a high professional level.

Nurses receive 30 days annual leave and 15 days sick leave each year, which can be taken as earned or allowed to accumulate so vacations with pay and pay while sick is assured.

Graduate nurses in North Carolina who are interested in appointments as VA nurses should obtain application forms from VA hospitals in Oteen or Fayetteville, or from Contact Offices or the Regional Office in Winston-Salem Applications, together with complete information, can be submitted to one of the hospitals, or to Director of Personnel, Veterans Administration Branch 4, Richmond, 20, Va.

**A NEW Broiler Ration**

Several experiment stations have shown that a 30 percent protein mash fed for the first two weeks will add from one-half to three-quarters of a pound to the broilers weight at eight weeks.

We are conducting experiments of our own and from results so far we believe this plan will work.

Before putting broilers on a feed—think this over.
