CONSTIPATION Risky in BAD COLDS

Retained undigested food becomes putrefactive, causes toxins, which overload the liver and other vital organs of the body, lessening your resistance to colds and other winter illnesses and interfering with their treatment. Why take this chance when you can take Calotabs? Calotabs thoroughly yet pleasantly act on every foot of your intestines, sweeping out toxin-laden putrefactive foods and virus-laden mucus, enabling you to more effectively avoid or fight a cold. Nothing acts like good old Calotabs. Use as directed. 10c and 25c at all druggists.

H. Y. Belk AND HIS NEWS OF NEBO VALLEY

Roland Hardin and wife from Charlotte visited at Blacksburg and Nebo.
 Roy Black and Pat Belk from the city visited your reporter Sunday.
 Met Mr. Hord Herndon Saturday on the Western Front.
 I got a nice letter from a young lady in a nearby town, with two dollars folded up nicely. Please send me the Herald. I did and thanks.
 I didn't find Mrs. William Wright's column last week in the Herald. We like her news from the countryside.
 FBI Director John Edgar Hoover recently refused the highest sum ever offered a law enforcement official on any radio program. \$18,000 a year. The Director politely declined the record-breaking offer in order to devote his full time to looking up crooks.

If one tenth that is said and written about our public men were true half of them should be hung. Tell one lie and you are forced to tell others to back it up. You see it requires other lies to support it.
 The old-timer who used to sing what will the harvest be, now has a modern son who wants to know how much it will pay pay-day.
 The late Will Rogers was genius, who got a break every where he went. It's quite possible that some where in this land there exists a similar genius who, can say things exactly as funny but who is utterly unknown outside his own private circle. That's the way fate works with us in this life.
 Bilbo I guess he's as good as those that throw mud at him. I don't like to see a man kicked around. Live and let live.
 If the man ever hits me with a blackjack it might be when I'm running. I won't be running to meet him either. No sir.
 Some men and women have struggled eternally and pretty valiantly too, if you ask me to regain some of the perfection power and glory in which he was created.
 Resolution. I just wonder if Adam and Eve did not make the first over, trembling there outside the Garden of Eden, naked and ashamed before the Wrath of God. They must of felt the need for turning over the pages and beginning all over again. I know we feel that a-way many times, don't we?
 There's many men in hell today that made many good resolutions, but didn't keep them.
 Most people on earth have some

belief in life after death. I'm glad I'm just that big a fool to believe in eternal life after death. I'm not a brute. I don't know where Heaven is located. I do know men have gone to the City of Gold and come back on a certain day in the form of Angels and returned in a cloud of glory.
 Watermelons and brown bread are the main diet of many people in Iran during several months of the year.
 A lady in picking out a husband if she has to choose between brains wealth and appearance, she will choose appearance 9 times out of ten. I don't blame you for that.
 Now, if only we were given another chance to live over again knowing what little we know now we would do a whole lot better than we have done in the past. We would profit by all the mistakes we have made. Oh, we would do quite differently, that's what we need another chance for.
 I never thought I'd be a poet. Time flies you say, oh no, Time stavs we go.

IF YOU THINK A WATCH IS COMPLICATED

LOOK AT THIS TELEPHONE JOB

Providing more and better telephone service is a time-consuming, painstaking job. Much of the equipment is as complicated as a fine watch.
 Thousands of tiny telephone connections must be soldered together, each in its precise place. Banks of delicate electrical relays set up. Miles of wiring laced into intricate switchboards. Poles erected. Wires strung. And so on... new building construction.

"Get the job done!"
 That's our slogan. And that's exactly what we are doing as fast as we can get scarce materials and then install the equipment.
 Telephone folks are working for you night and day, hustling along with the Telephone Company's program to improve service.

PROGRESS... and how!
 In NORTH CAROLINA during 1946, the Telephone Company installed more facilities than at any other time in history. 52,000 miles of exchange wire, 4,200 miles of long distance circuits, and 37,500 telephones were added. 42 local and long distance central office additions were made and the number of employees increased 33 per cent.
 As telephone service grows, so does its value to you. That's because you can reach so many more people. Each new day brings you more for your telephone dollar. A bargain... and how!
