7:00 p. m. Preaching service.
Thursday—
7:00 p. m. Prayer service.
Saturday—
7:00 p. m. Prayer service.

A Sound Thinker

As I sat a few days ago in the spacious office of Mr. John Snyder, secretary of the Treasury, and listened to that keen thinking gentleman outline his views on certain monetary policies, I found myself wishing that all public thinking were as clear, and as cognizant of good economic horse-sense.

In the first place the Secretary believes that a thorough study of the necessary costs of government should be made. He believes then that this cost should be reduced to the very minimum consistent with good government. In the second place he believes that a high national income is possible only if a sound economy is maintained. This sound economy must be based upon maximum production at high efficiency, which he feels would make possible a large foreign trade.

On Your Feet, Sam!
In the third place he believes we should seriously undertake liberal payments on the national debt. This should be done at once. To me that is just plain, common horse-sense. It is just the way a wage earner, farmer, merchant, or manufacturer, heavily in debt, with a large family, but still in good health, would have to plan if he expected ever to get on his feet and leave any heritage to his children.
Uncle Sam is heavily in debt, his children have adopted spendthrift habits, have lost the art of hard work, are quarreling with one another, and are growing more and more inclined to leave the worrying to the old man. The need of the hour is sound counsel from Washington for the entire nation to realize its critical condition, and to act accordingly.

A Sound Program
Secretary Snyder's program needs to be understood, for it is one in which the whole nation can participate. His three point program (in my own words) would be about as follows:

1. Stop the fantastic waste in almost every department of government. Pare costs rigorously, forgetting political expediency.
Let industry reduce prices until the profits stand at a very low level. Let labor aim for maximum production, in order to get a real raise through lower prices. Such production will permit active foreign markets, a thing not only necessary for us but for other nations as well.

2. Let taxes remain on a broad base, with only those cuts being made which are necessary to induce investment in the tools of production, while we all do our part to reduce the very heavy national debt.

Steady Employment
Personally, I would modify item three. It is my opinion that if reductions in the budget were seriously and studiously undertaken, all three points Secretary Snyder features could be achieved, and we could still obtain at the same time a real reduction in income taxes.
Comparatively high taxes we must have. The costs of national living, in times of peace but amidst quarrels and aggressive neighbors, may continue to run high. But there are certain reductions that by all means should be made in order to encourage more venture capital. We shall continue to need wide investment of private capital in tools. That will mean more jobs and more steady employment.

SECOND WESLEYAN METHODIST CHURCH
Jessie Henson, Pastor
9:45 a. m. Sunday school.
11:00 a. m. Morning worship.
7:00 p. m. Evening worship.
Wednesday: 7:00 p. m. Prayer service.

TEMPLE BAPTIST CHURCH
Corner of Fulton and Cansler Sts.
Rev. P. D. Putnam, Pastor
Sunday—

Second and fourth Sundays 7:00 p. m.

We wish to express our deepest appreciation and offer heartfelt thanks for the floral offerings and many expressions of kindness shown to our beloved husband and father, Mrs. J. C. Jolly and Family.

Potato Harvest To Start June 2

RALEIGH. — Digging of early commercial Irish potatoes is expected to begin the week of June 2, according to the State Agriculture Department which also reports that the crop has been damaged to some extent by the cool, dry weather which prevailed over most of North Carolina during April and the first two weeks of May.

Other truck crops made good recoveries during the last two weeks in April, during which the weather was alternately warm and cool with more than adequate moisture in most areas. Previous unfavorable weather had set the crops back somewhat.

The snapbean crop was reported to be up in all areas and making normal growth. Harvest in the Sampson, Wayne, Duplin and Pender area is expected to begin May 25. In the Edenton and Elizabeth City section, where the young plants suffer of light cold damage earlier in the spring, the harvest will begin June 1.

and Wilmington areas made according to the National Fire Protection Association, farm fires damage of March, but stands still approximately \$90,000,000 worth of property each year.
