

**Cold Helpful Anesthetic For Preserving Tissue**

Experience to date continues to confirm the safety and benefit of refrigeration anesthesia, according to Drs. Lyman Weeks Crossman and Frederick M. Allen of New York who first demonstrated the advantages of this type of anesthesia. Writing in *Journal of the American Medical Association*, the physicians state that the "trial period of surgical refrigeration may be measured from the first publication of experiments on animals and clinical cases in 1937 or, better, from the adoption of the method on the surgical service of the City Hospital in 1941."

Experiments have demonstrated that cold serves as a shockless anesthetic in surgery, preserves injured tissue and restrains infection until the patient is strong enough to undergo an operation. Moreover, it reduces pain and swelling.

Drs. Crossman and Allen point out that "in cases of severe trauma (injury) of limbs, refrigeration serves preeminently to gain time in an emergency by preserving the injured part for days or weeks until the patient gains sufficient constitutional strength to withstand amputation. A secondary benefit, however, is reported as the development of time thus gained, so as to permit a lower level of amputation. This may make the difference between an emergency amputation high in the thigh and an amputation just above the knee a few weeks later. This difference has practical importance for the patient's subsequent walking and earning ability."

The USDA has announced that approximately 58,133,000 bushels of United States grain and grain products were exported in April.

**Many Uses Found for Salt in Everyday Life**

Although the average person eats about 6 pounds of salt a year, he makes use of 190 pounds in other ways on farms and in products made with the help of salt. And every morning when he dresses, he wears a little salt, for salt is used in tanning his shoes and in processing and dyeing his clothing.

Used to freeze ice and ice cream, rock salt is even more widely used to melt snow and ice, and for that reason cities and states throughout the snow-belt area spread it on streets and highways to keep them open and safe during winter storms. Home owners spread rock salt on porch steps, driveways and sidewalks.

In the hands of American scientists and craftsmen salt is a magic material and there is scarcely an item used in daily living that has not been touched by it in one way or another. Chemicals, glass, paper, plastic materials, steel, ceramics—salt is used in the manufacture of all of them. Used as a seasoning, it points up the distinctive flavor of food, and to pass the salt at mealtimes is such an automatic gesture few people realize that without the penny's worth of salt human beings could not live. Used as a basic chemical, it cooks up some of the deadliest weapons devised by man. Yet while chlorine, a derivative of salt, is an important wartime product, public health depends upon the inclusion of this same chemical in drinking water for protection against disease.

Veterans Administration constantly is reducing its backlog of veterans' requests for physical examinations for compensation and pension purposes.

**James Allen Rites Held**

Funeral services for James Allen, 91, prominent farmer and land owner, of route 1, Grover were held Sunday afternoon at Pleasant Hill Baptist church with Rev. Lawrence Roberts, pastor, officiating. Interment followed in the church cemetery. Mr. Allen died at his home Friday afternoon following an illness of two weeks. For several years he had been in declining health.

Member of one of the pioneer families of Cleveland County, Mr. Allen operated a corn mill in the community for a number of years. He is survived by eight children: Mrs. Amanda Hamm, Mrs. Dovie Bowen, Mrs. Sallie White, all of Patter son Springs; Mrs. Julie Leigh, of Kings Mountain; Mrs. Viola Curry and Mrs. Mollie Green, of Grover, route 1; Greer Allen, of Iron Station; and Jake Allen of the home.

**John Painter Rites Conducted**

Funeral services were held Saturday afternoon at Carothers Funeral Home, 74, whose death occurred Friday, May 16, after a three-week illness. Interment was in Mountain Rest cemetery here with Rev. P. D. Patrick conducting the graveside service.

Mr. Painter, a resident of Gastonia is survived by his widow, one daughter, Mrs. R. C. Bordman of Detroit, Mich., and five sons, L. W. Painter of Kings Mountain, H. B. and Frank Painter of Gastonia, Troy Painter of the home and Carl Painter of Canton, N. C.

**Mrs. Susanna Ward Final Rites Held**

Funeral services were held Monday at 3 p. m. for Mrs. Susanna C. Ward, 76, of Belmont, who died at her home in the Eagle Mill community Saturday at noon after a long illness.

The service was held at the Four Square Gospel church. The pastor, Rev. K. L. Falkner, assisted by Rev. Walter N. Long, pastor of First Baptist church of Belmont, and Rev. J. W. Phillips, pastor of First Wesleyan church of Kings Mountain officiated. Burial was in Mountain Rest cemetery.

Mrs. Ward was the daughter of the late Matt Cash and Henrietta Smith Cash of Gaston county. She had lived most of her life in Belmont, Gaston county.

Surviving are the following sons and daughters: G. W. Ward, Kings Mountain, Mrs. George W. Michael of Belmont, Mrs. G. A. Barrett of Kings Mountain, A. M. Ward of Toluca, Lincoln county, Claude Ward of the home. Also surviving is a half sister, Mrs. Catherine Honeycutt of Spencer Mountain, and a half-brother, Jim Cash of Atlanta, Ga.; 11 grandchildren and 7 great-grandchildren.

**CARD OF THANKS**

We wish to thank our many friends for the beautiful flowers and the kind sympathy which they expressed at the untimely passing of our father.

Mr. and Mrs. L. W. Painter
