Rice Went On Price Control List

ATLANTA, Ga., July 1—The expiration of pricing authority at midnight June 30 removed rice from price control. A. D. Simpson, Jr., regional executive of the Sugar Rationing Administration, said here today.

Simpson pointed out, however, that other functions of SRA, including the price control of sugar and sugar syrups, the industrial rationing of sugar, and the maintenance of inventory controls on wholesalers and retailers, continue in effect. The authority of the Sugar Control Extension Act over price controls does not expire until October 31.

Bob's Cola Presenting "Shamrock," New Drink

Bob's Cola bottling Company, of Kings Mountain, is presenting this week a new soft drink, it was announced by Bob Abernathy. Name of the new drink is "Shamrock," and, typical of its Irish name, the drink has a green color. It has a "lithiated-lime" flavor, Mr. Abernathy said, and is a particularly cooling, hot weather beverage. The new drink is now available at local drink stands.

Industrial Sugar User's Ration Up

ATLANTA, Ga., July 1—Shortening of the third "quarter" by 11 days will increase industrial users' sugar allotments for the period from 75 to 85 percent of their sugar base, A. D. Simpson, Jr., regional executive of the Sugar Rationing Administration, said today.

Simpson said the period which sugar rationing evidences originally were issued to cover — July 1 through September 30—will be ended September 19. Additional ration evidences will be issued before that date to cover the September 20-30 period. In providing the same shortened period of use for pharmaceutical users, the allotment has been increased from 120 to 135 percent, Simpson said.

This increase in third quarter allotments, he said, has been announced in lieu of a plan announced June 23 and withdrawn the same day, which would have permitted industrial users to obtain and transfer sugar evidences for sugar to be used industrially in the making of sugar-containing products.

About one sixth of the American Indians in the United States are Navajos.

94 Reports Burglaries in Cities During Year

The department of justice announced that according to Director J. Edgar Hoover of the Federal Bureau of Investigation a total of 1,685,200 major crimes were committed in the United States last year, the highest annual total reported in the history of the bureau.

Every 3.7 minutes during 1946 there was a crime of murder, manslaughter, rape or assault to kill. The total of 1,685,200 major crimes for the entire year represents an increase of 119,000 over 1945. The foregoing estimates are based on FBI from more than 2,300 cities representing a combined population in excess of 67 million.

A comparison of 1946 crime with that of 1945 shows increases of 23.3 per cent in murder and manslaughter; 13.7 per cent in robbery; 5 per cent in rape; and 12.9 per cent in aggravated assault. Larceny increased 8.9 per cent and burglary 11.3 per cent.
