H. Y. Belk AND HIS NEWS OF NEBO VALLEY

George Belk and children. From High Shoals spent Sunday at Nebo. Harrison Belk spent the week end with Grandpa Belk from Ft. Sam Houston.

Had a long letter from Wray Stewart in Alaska. Always glad to get a letter from the Corporal. I started to send him the paper. His sister had sent it to him. John Stewart I must say is truly one of the best men I have ever known.

I went out to see Aunt Nancy Adams. She is in bed very sick at the age of 110. Her sister is with her from Chicago. She's 80 years old. They must of obeyed the Lord. I will honor you with a long life if you obey.

This one I didn't copy— Its a little story I've been asked to get in print:

Folks been raising quite a little hell out this way. Two, three or four somebodies, I am told met Mrs. Agnes Cole's little boy up the creek where its a free swimming hole for all, and several boys beat the little Cole boy up pretty bad with sticks. I didn't see it done, but I saw three sticks that was said to be used. This boy is a fatherless boy. He and his mother are Christians, and its a dam shame how he was treated and it on Sunday. People out this way don't like such treatment. I repeat I didn't see it, but where lots of smoke boils up must be some fire back in the brush.

Wars start at home and end up oversea.

Saturday I called at the new home store. The first man I met was Horace Hord. He sure has that store dolled up and full up with all kinds of good eats. I rolled that little baby buggy all over the place just picking up good things to eat. When I got back to Nebo I was surprised to know I had money in my pocket and so many good eats. Yes, before I left Horace handed me two dollars. I believe I will send the paper to him for a long time. I like the Hords, they are square shooters.

You remember David said all men in haste are liars. What about some women. If a woman gets in love and he goes back on her why does she pine away and never love another? That's my question.

If you don't believe these modern gals know their onions just pass by a beauty shop and peep in.

Our reputation s are made by what some smart people say about us and more often that's a hell of a lot.

I know a fellow that's so smart he won't tell a lie on himself—he looks out for the other fellow.

Beauty treatments seem to do a lot of good but soon rub off and its go back and do it all over or else look like a last year's old model. In these fast moving days it pays to be a good looker and a fresh model.

I overheard a smart sloop drinker telling a crowd as this news reporter passed up street: Belk thinks he is smart. That's nothing for folks to say about us. My mother said that if I was as smart as some folks look act and probably feel, I'd be a fool.

If women spent more time in the kitchen, less time in the beauty shops we'd have better cooks. A lot of me ndo their own cooking. Men usually care nothing else than a square meal three times a day. Some never get on the square.

There are lots of people whose vision never reach farther than their supper table. They go out and borrow stuff for breakfast. I would not mind if they didn't rap on the door at such an early hour.

What futility to dream of world wide peace and then fight at home all the time. (Hell).

Some so-called beautiful women are so stuck on themselves they think everybody is in love with them.

Joe Goforth says he never would get drunk any more if it weren't for that glorious feeling. Let's give Joe a big hand.

Since everybody doing it; doing what? Spending money, having a highheel time. Its no time to feel broke and down-hearted. We may always be rich.

We like to talk about Russia. One very interesting feature of the Russian government is their prison system. Prisoners are paid wages and given vacations just like anybody else and there is nothing about their wearing apparel to indicate that they are prisoners except stealing or defrauding the government in which instance they are shot.

Russia has about the best form of slavery ever devised. In the south before the civil war the negroes were under individual taskmasters and some of them mighty hard-ones. Under the Russian form of government her citizens are under taskmasters and they seem to treat their slaves very well. I shall have more to say about Russia later in my column.

When Russia get on us they are going to make us fight like hell.

Dogs fight and quit. Men fight like dogs and never quit. What did our boys get after being sent over to the slaughter pen? Some got death, some got one leg off, one eye out one arm off, many with the head blowed off. Now ready to raise hell again after a short recess. Let those that didn't go the other time go. I know lots of them that hid out and kept out. I hope Sam won't let these slackers slack and slack out next time. Our boys asked to go, now take these slackers and get them out of the way.

I never thought I'd be a poet: Somewhere in Alaska where a woman is seldom seen, Where the sky is often cloudy and the spruce is ever green, Where the huskies nightly howl, robs a man of blessed sleep, Where there isn't too much whiskey and the whskel never cheat. Gosh!
