

More Than 500 Phenix Employees, Guests Enjoy Holiday Outing

More than 650 employees and guests attended the picnic given by Phenix Mills, local unit of Burlington Mills Corporation, on Saturday, August 9, at Phenix Park. The program began at 4 o'clock in the afternoon and was climaxed by a picnic dinner served at six.

The plant was closed for the day, this being one of the regularly scheduled holidays given the employees during the summer months.

Most of the workers took advantage of the opportunity to bring guests, and all of the families were well represented.

The first thing on the schedule was a softball game between the overseers and the spinning doffers. Frank Adams, overseer in the winding department directed the play of the overseers; and Frank (China) Davis did the masterminding for the doffers. George Peeler, Superintendent, did the umpiring, until Adams, continually dissatisfied with his decision, took him out of the game, led him off into the bushes, and "shot" him. The game was stopped, but the final score had not been determined at last reports. To mention stars of the game would be impossible, both teams playing jam-up ball all the way.

All entries in the rolling pin throwing contest showed great skill, but Iva Lee Pearson placed first and Grace Huffstickler was second.

Out of forty entries in the horse-shoe pitching tournament, two teams battled down the stretch with Willard Dotson and Lewis Carroll, the winners, and James Reinhart and James Harrison, the runners-up.

The winners of the egg toss contest were Fred Pearson and Roy Pearson, and in second place were Ernest Scism and George Pasour.

The costume race, limited to four men, resulted in a display of masculine pulchritude modeling the latest in women's wear. The winner was Ernest Scism in a close race with Harry Wilson, who placed second.

To the winners in all contests went certificates for Burlington Made products, which will be ordered through the Burlington Mail Order System, a plan available to all workers.

The menu, consisting of fried chicken, corn on the cob, slaw, tomatoes, potato salad, pickles, light bread, lemonade, coffee, and ice cream, was prepared and served by Olive Moore and his assistants.

An amplifying system was used for the playing of records during the afternoon program.

Church News

10:30 A. M. Junior Choir rehearsal

The USS Ingersoll's first service was as flagship of Admiral Royal E. Ingersoll, then Commander-in-Chief, U. S. Atlantic Fleet. The destroyer was named in honor of the Admiral's father, who served with distinction during the Civil, Spanish-American and World Wars, and the Admiral's son, a hero of World War II.

Turkey production from 1929 to 1944 nearly doubled, but the number of farms raising turkeys in 1944 was about one-third that of 1929. Consequently, the average turkey farm was raising more than five times as many turkeys in 1944 than in 1929.

Army Allowances Still in Force

In order to clarify a misunderstanding in the minds of many people, Lt. Thomas H. Suydam, commanding officer of the Shelby Sub-Station of the Army Recruiting Service, issued a statement today to the effect that family allowances for dependents of men joining the Regular Army are still in force.

Although some benefits to servicemen have recently been discontinued, family allowances were not affected. All men joining the New Regular Army are still guaranteed the family allowance for their dependents for the duration of the emergency plus six months.

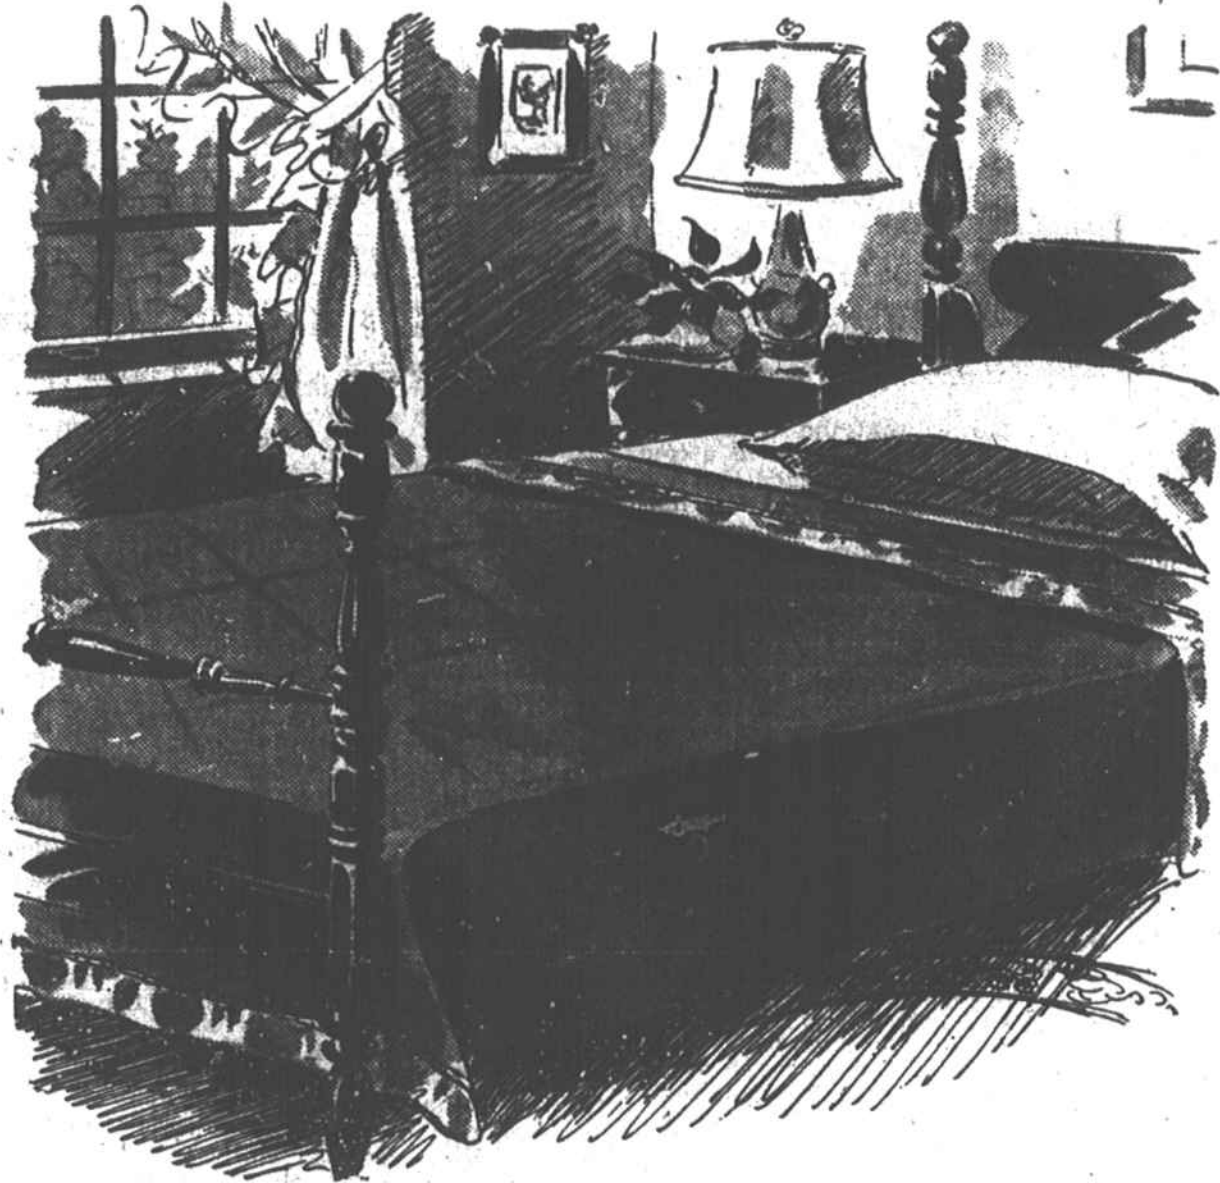

The Lt. also stated that the Recruiting Service "VJ" month, being conducted during the month of August, is off to a flying start. The local recruiting sub-station and all

local Recruiting Sergeants have received many inquiries from former members of the Army, Navy, Marine Corps, and Coast Guard in reference to the many offers being made to veterans of World War II, who join the Regular Army during "VJ" or "Veterans Joining" month.

Before the war, the United Kingdom imported about two-fifths of the eggs consumed. About 60 percent of the imports came from Denmark, the Netherlands, and Poland.

The "Lost and Found" column of a Navy Seabee battalion newspaper in the Pacific during the war offered a reward for a Japanese bugle, trophy of one of the mates. However, in this case the reward was offered not for the instrument's recovery, but for its disappearance. Complained the men who inserted the notice: the owner practiced too much!
